

University of the Pacific Women's Basketball Team Scouting Report

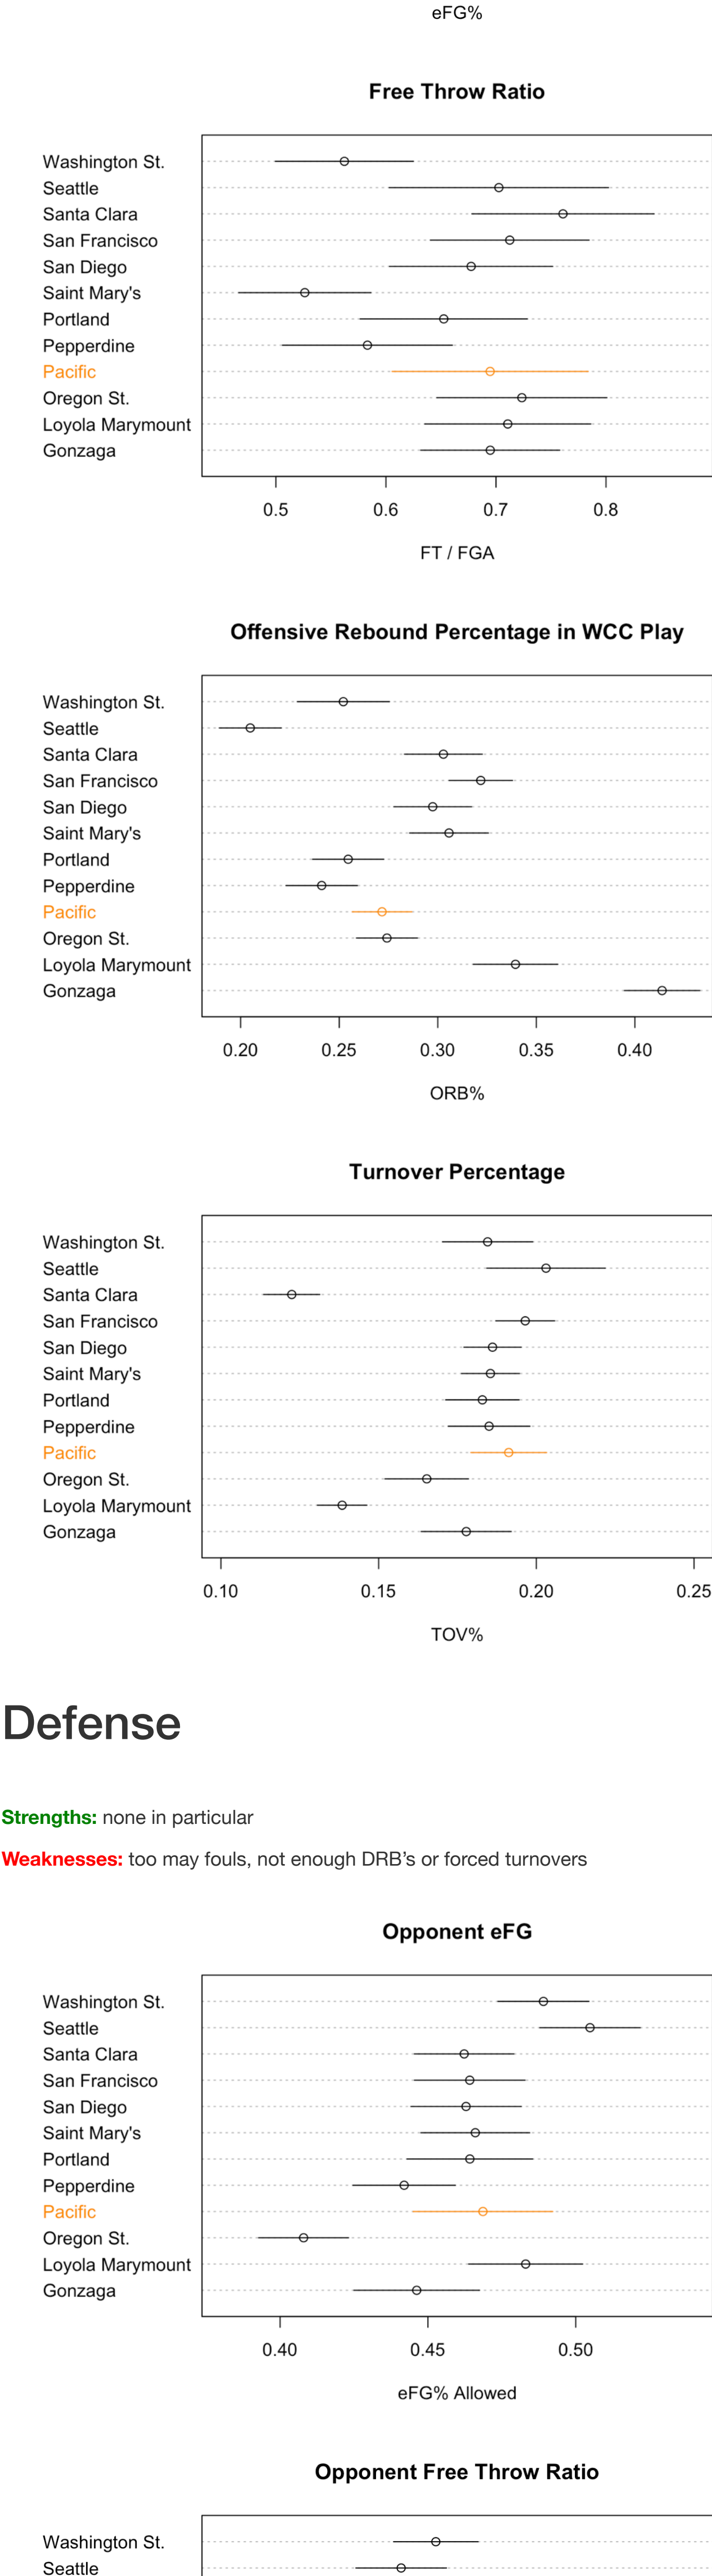

Overall Key Points

- Does not draw fouls or control their own fouls particularly well
- Struggles with rebounding on both ends of floor
- Possible concentration of assisting, defensive rebounding

Offense

Strengths: none in particular

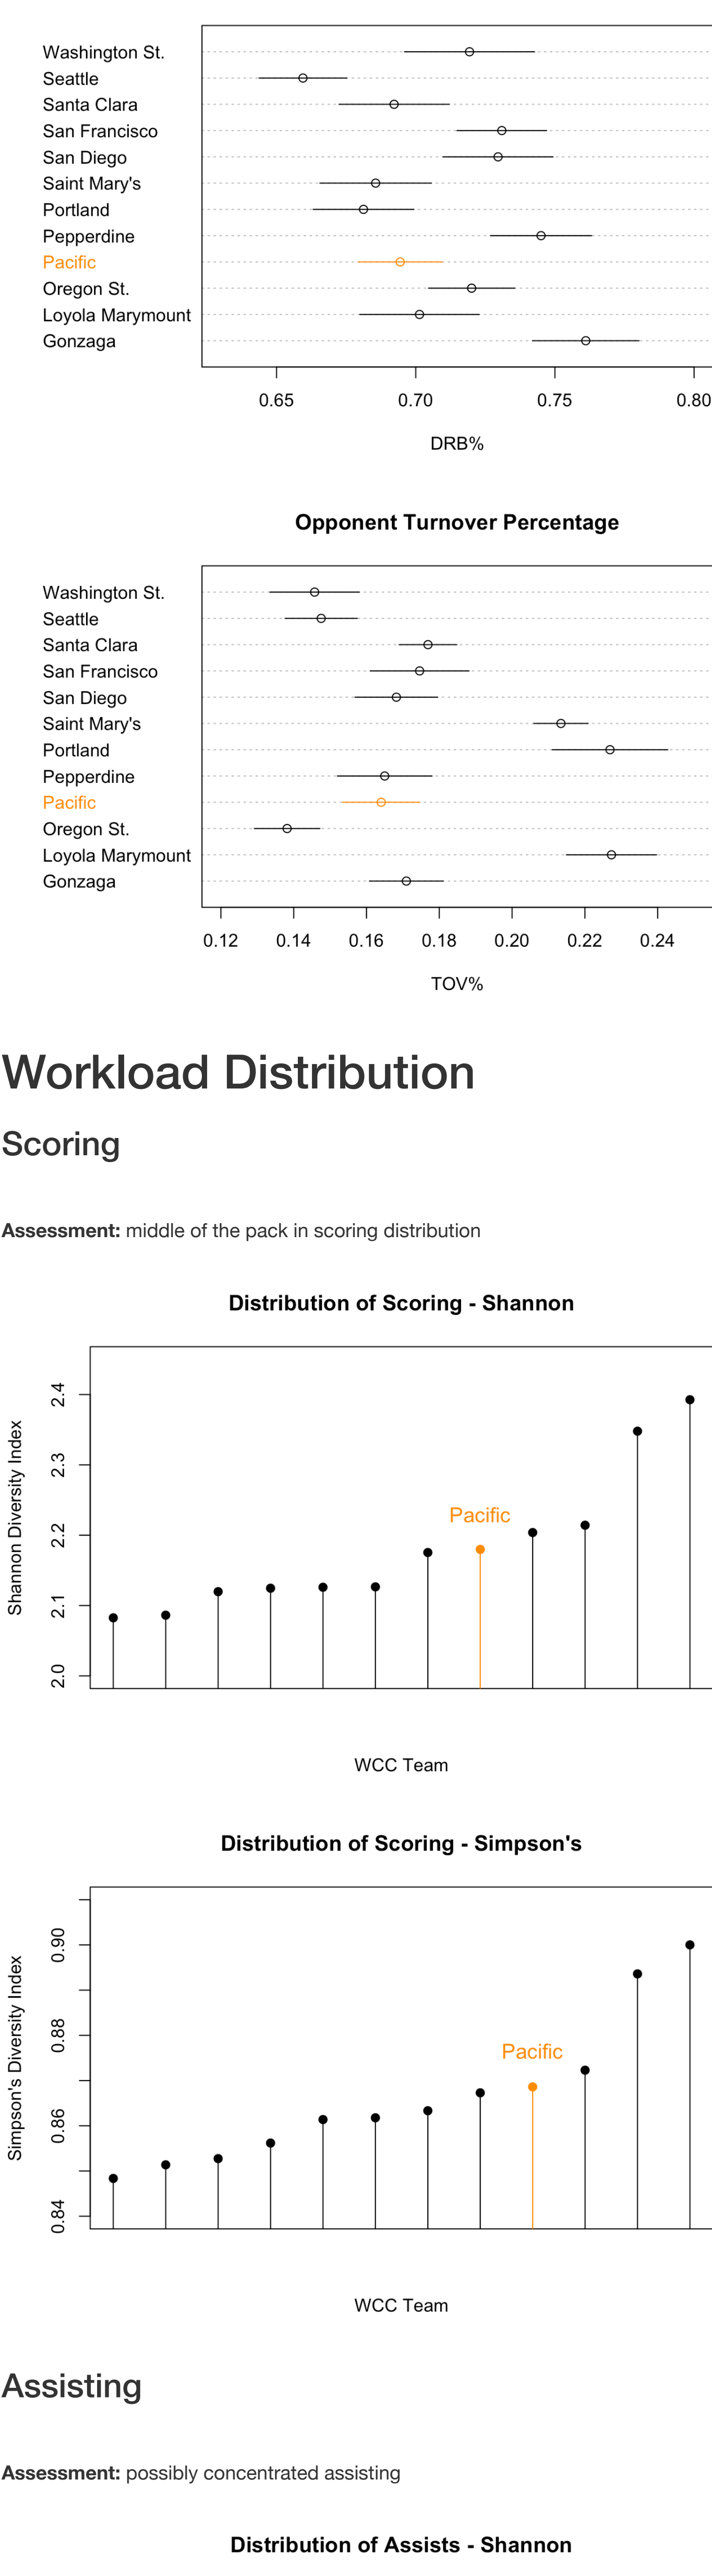

Weaknesses: subpar offensive rebounding, below WCC average in drawing fouls

Defense

Strengths: none in particular

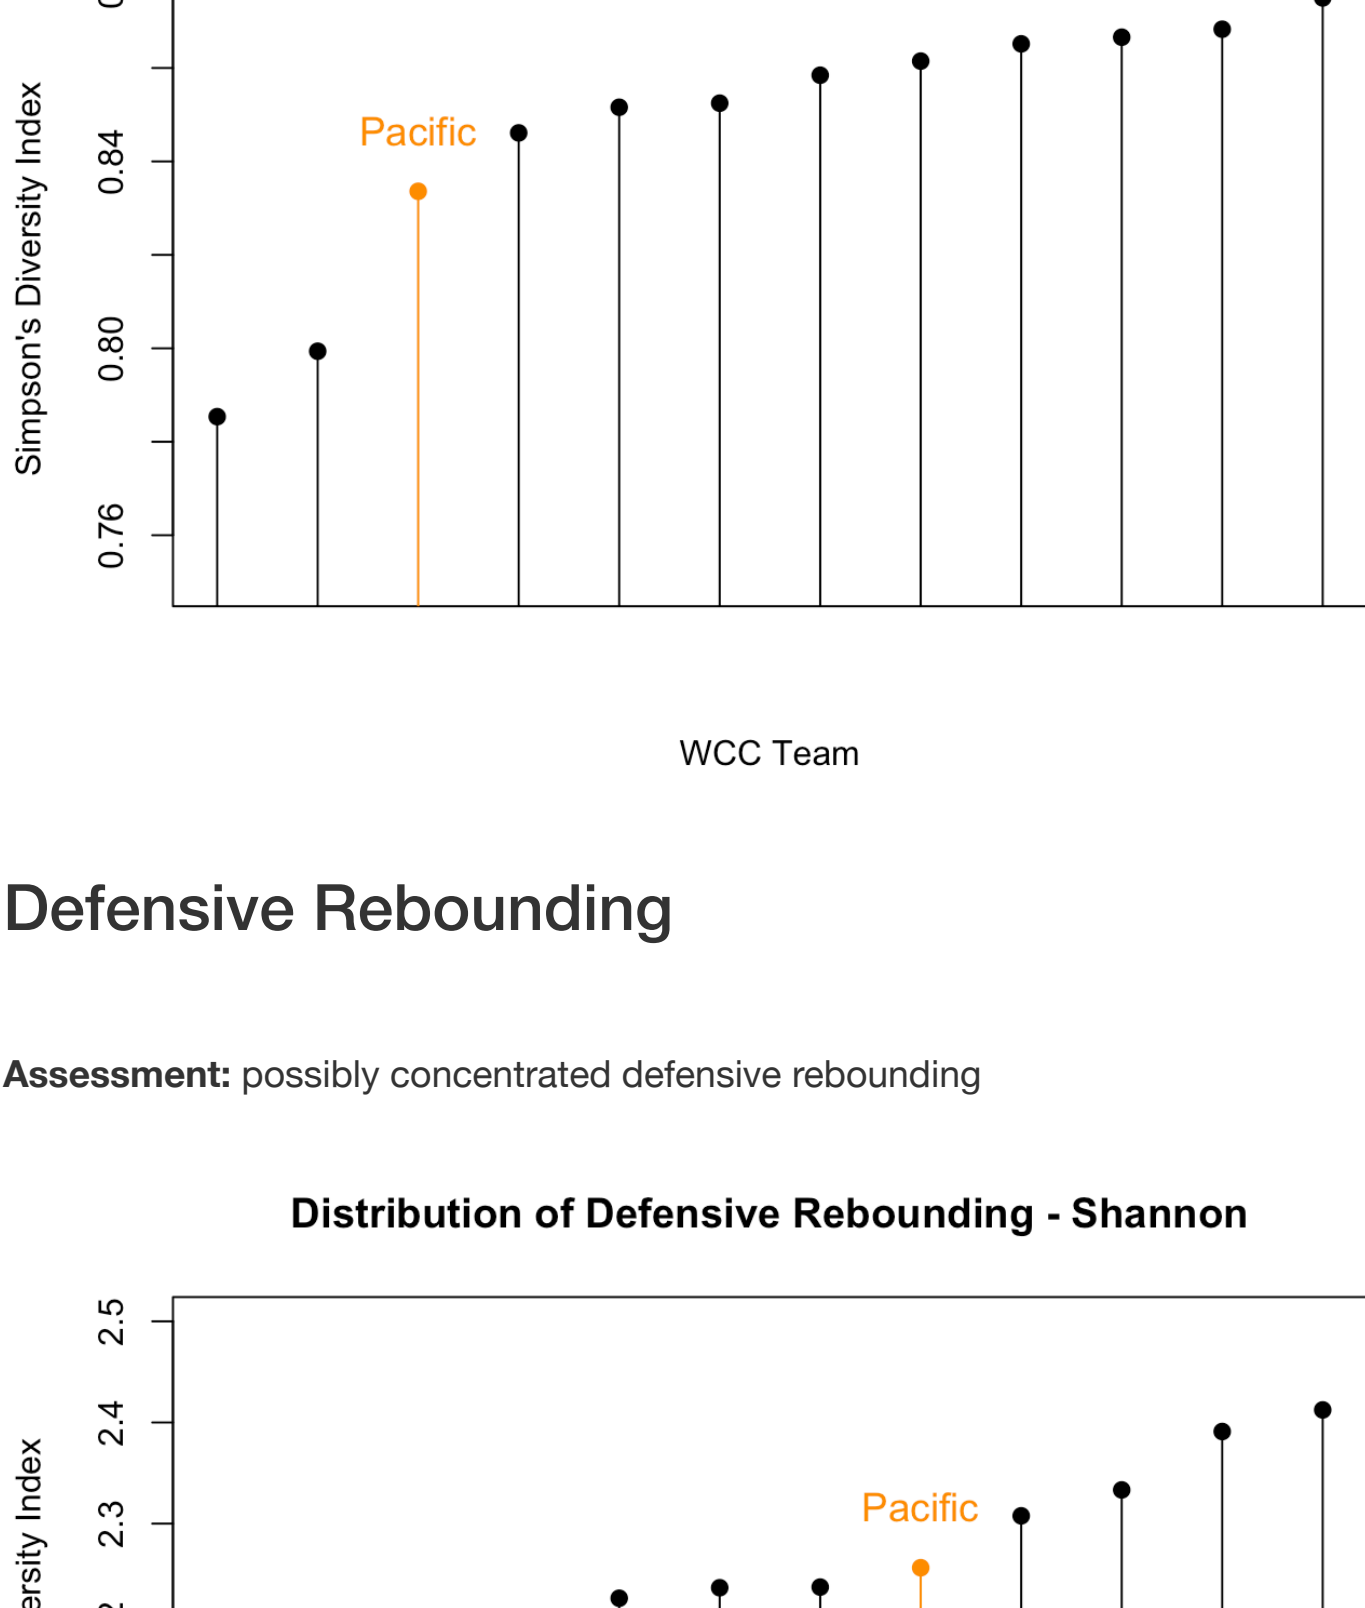

Weaknesses: too may fouls, not enough DRB's or forced turnovers

Workload Distribution

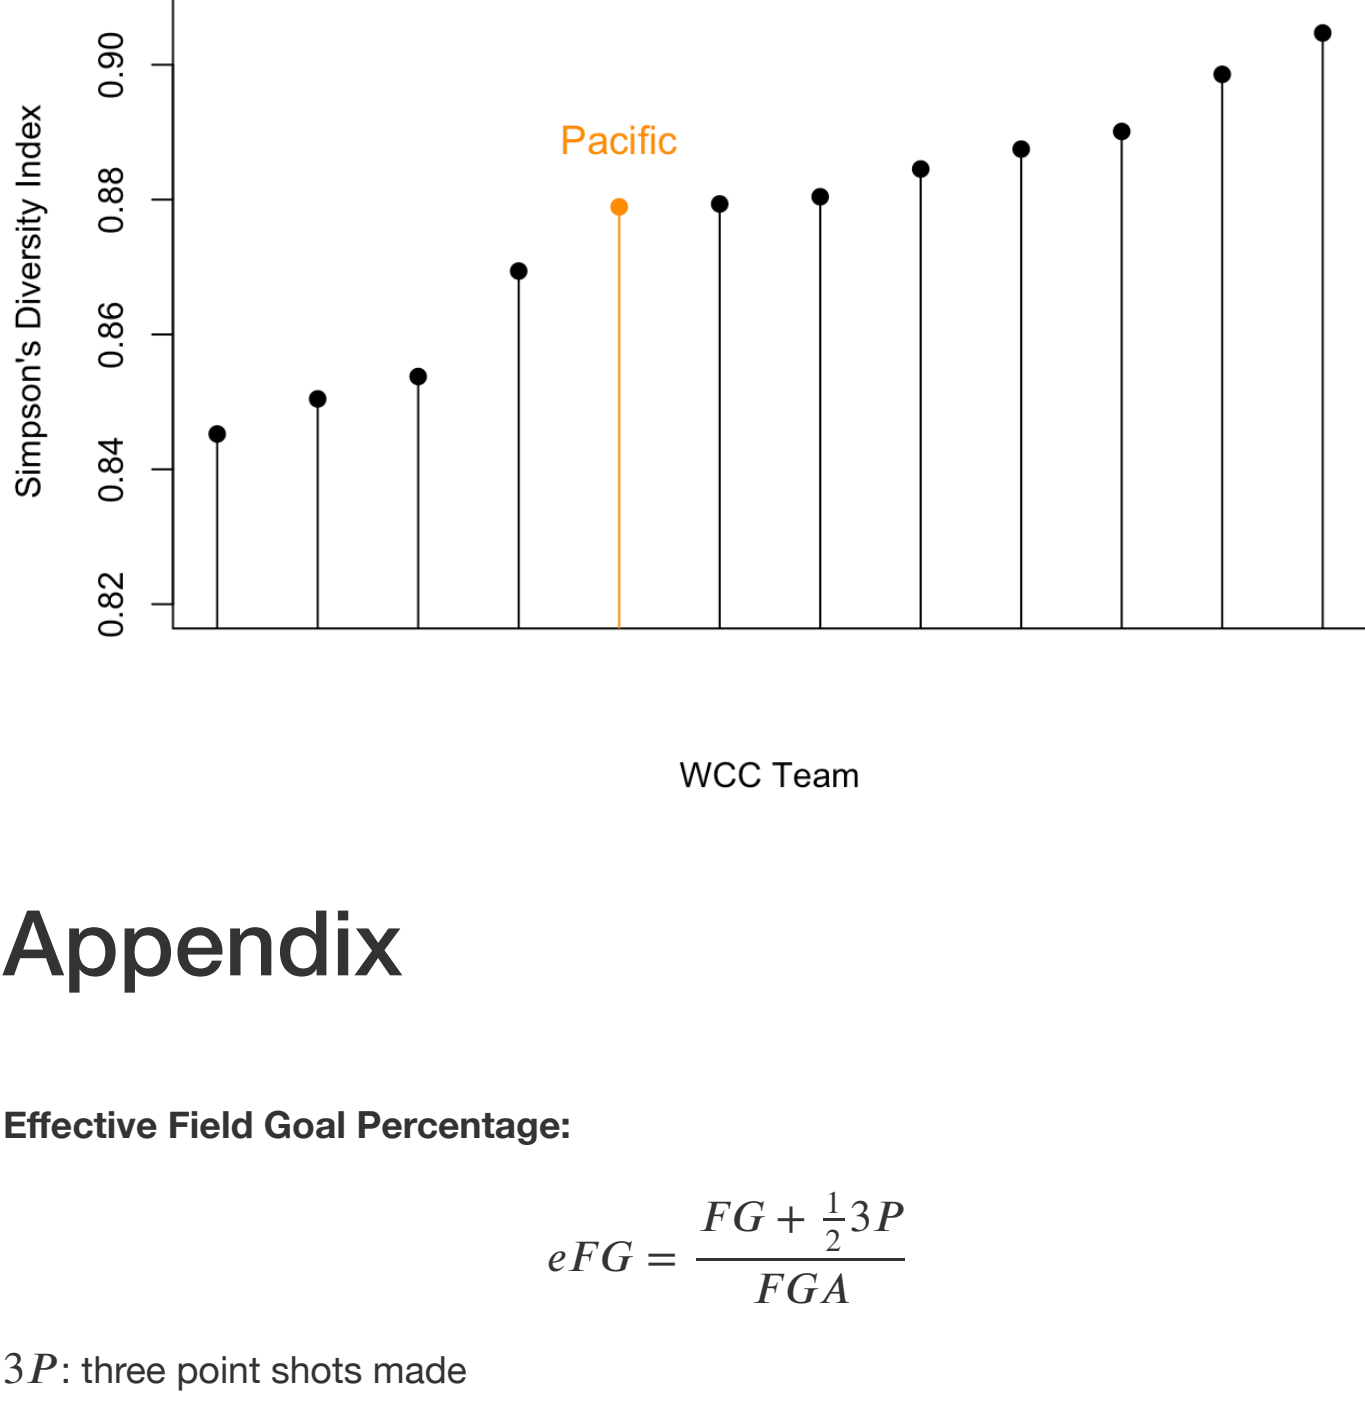

Scoring

Assessment: middle of the pack in scoring distribution

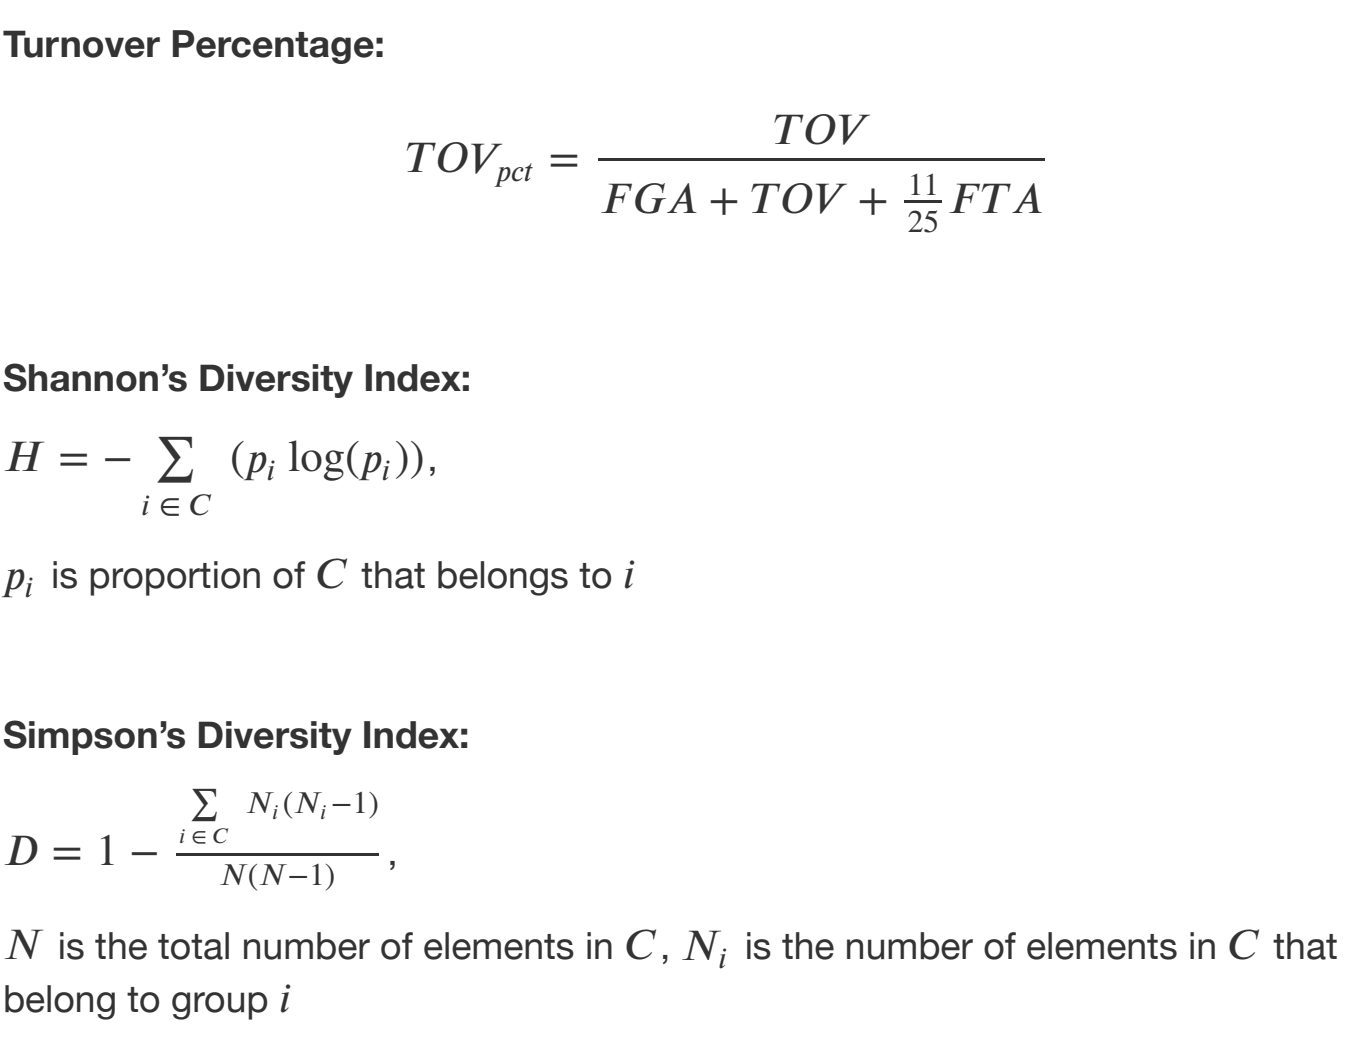

Assisting

Assessment: possibly concentrated assisting

Defensive Rebounding

Assessment: possibly concentrated defensive rebounding

Appendix

Effective Field Goal Percentage:

$$eFG = \frac{FG + \frac{1}{2}3P}{FGA}$$

3P: three point shots made

Free Throw Percentage:

$$FTR = \frac{FTA}{FGA}$$

Rebounding Percentage:

$$RB_{pct} = \frac{ORB}{ORB + Opp\ DRB}$$

flip ORB, DRB for defensive rebounding metric

Turnover Percentage:

$$TOV_{pct} = \frac{TOV}{FGA + TOV + \frac{11}{25}FTA}$$

Shannon's Diversity Index:

$$H = - \sum_{i \in C} (p_i \log(p_i)),$$

p_i is proportion of C that belongs to i

Simpson's Diversity Index:

$$D = 1 - \frac{\sum_{i \in C} N_i(N_i - 1)}{N(N - 1)},$$

N is the total number of elements in C , N_i is the number of elements in C that belong to group i
