

Pepperdine University

Women's Basketball Team Scouting Report

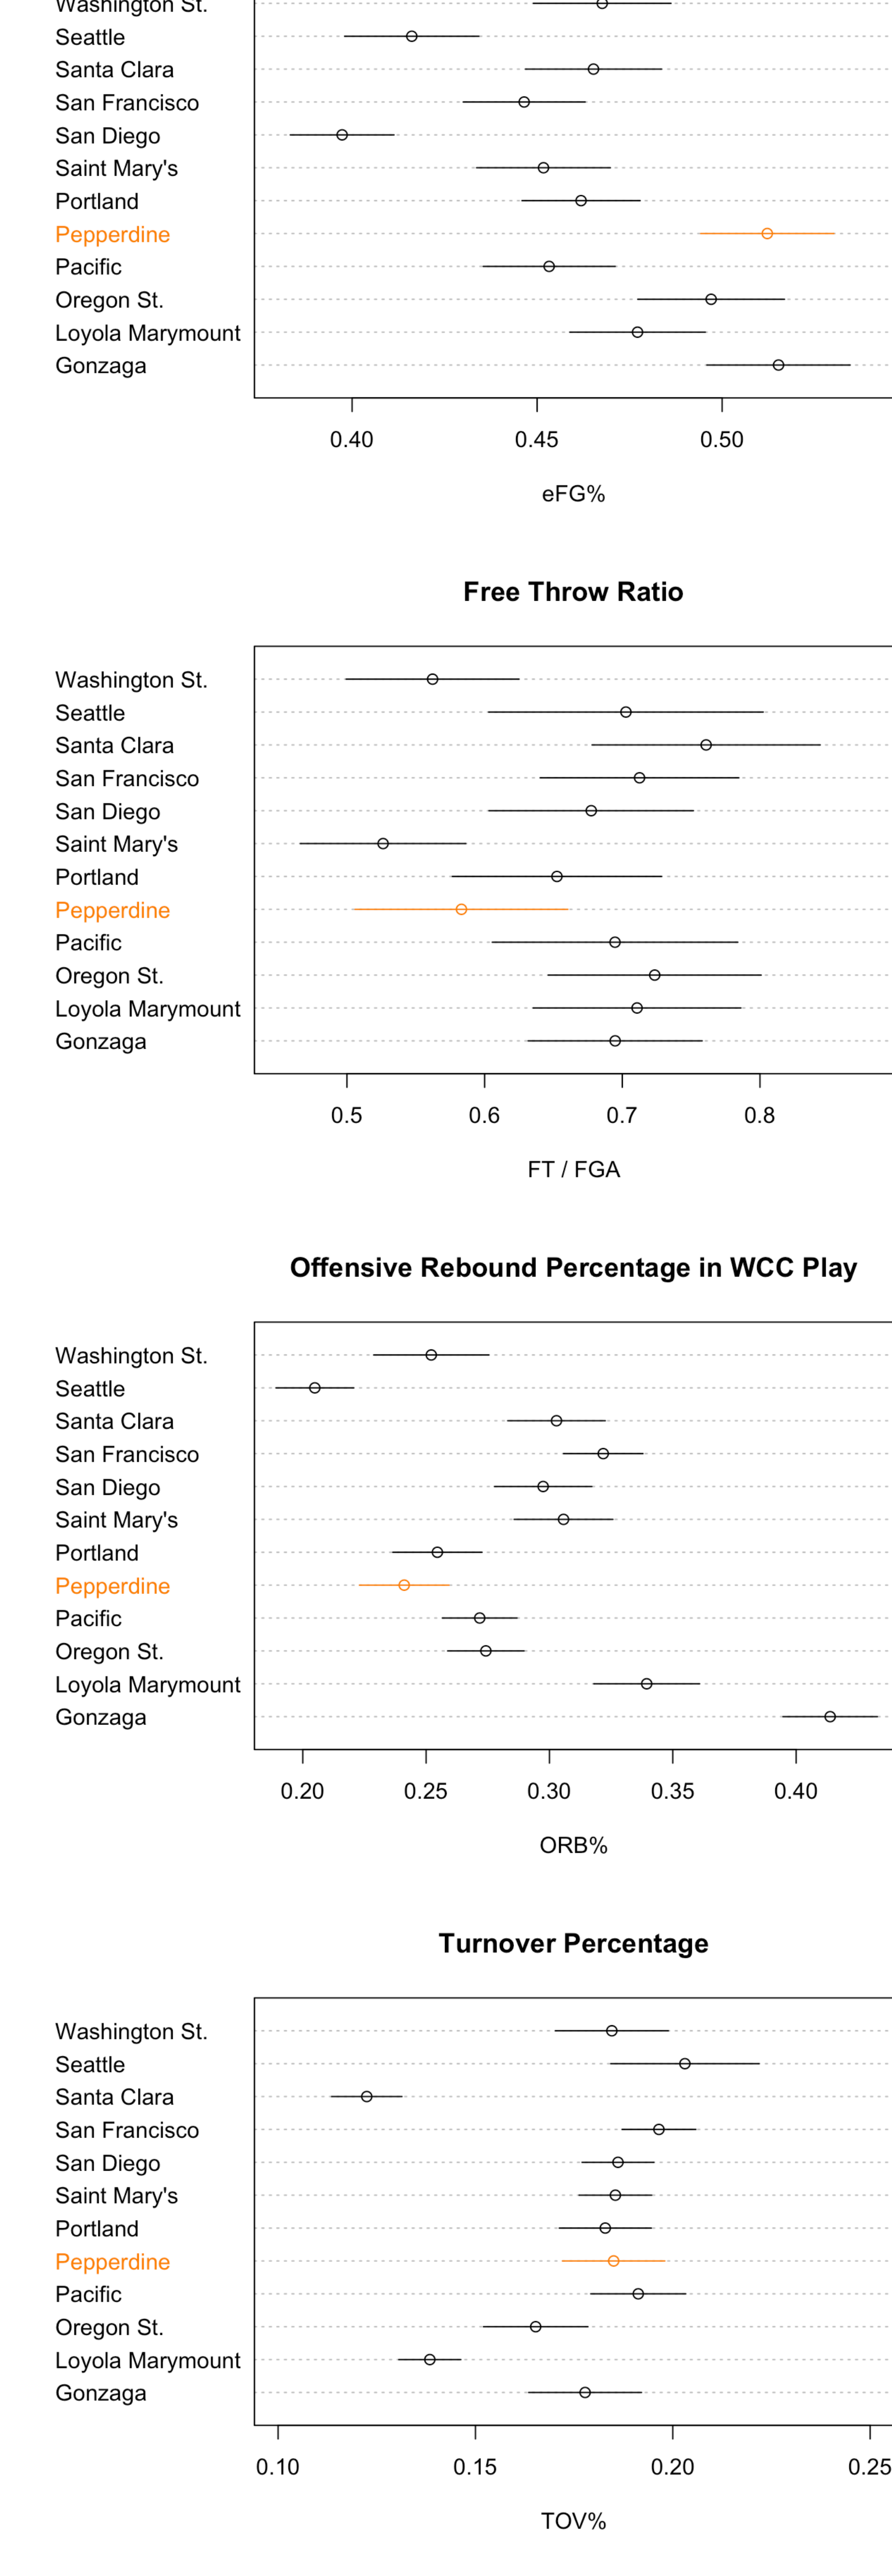

Overall Key Points

- Elite field goal shooting
- Lackluster ability to draw fouls or grab offensive boards
- Mediocre defense
- Defensive rebounding highly concentrated among three players; however, **none** are returning to team

Offense

Strengths: shooting

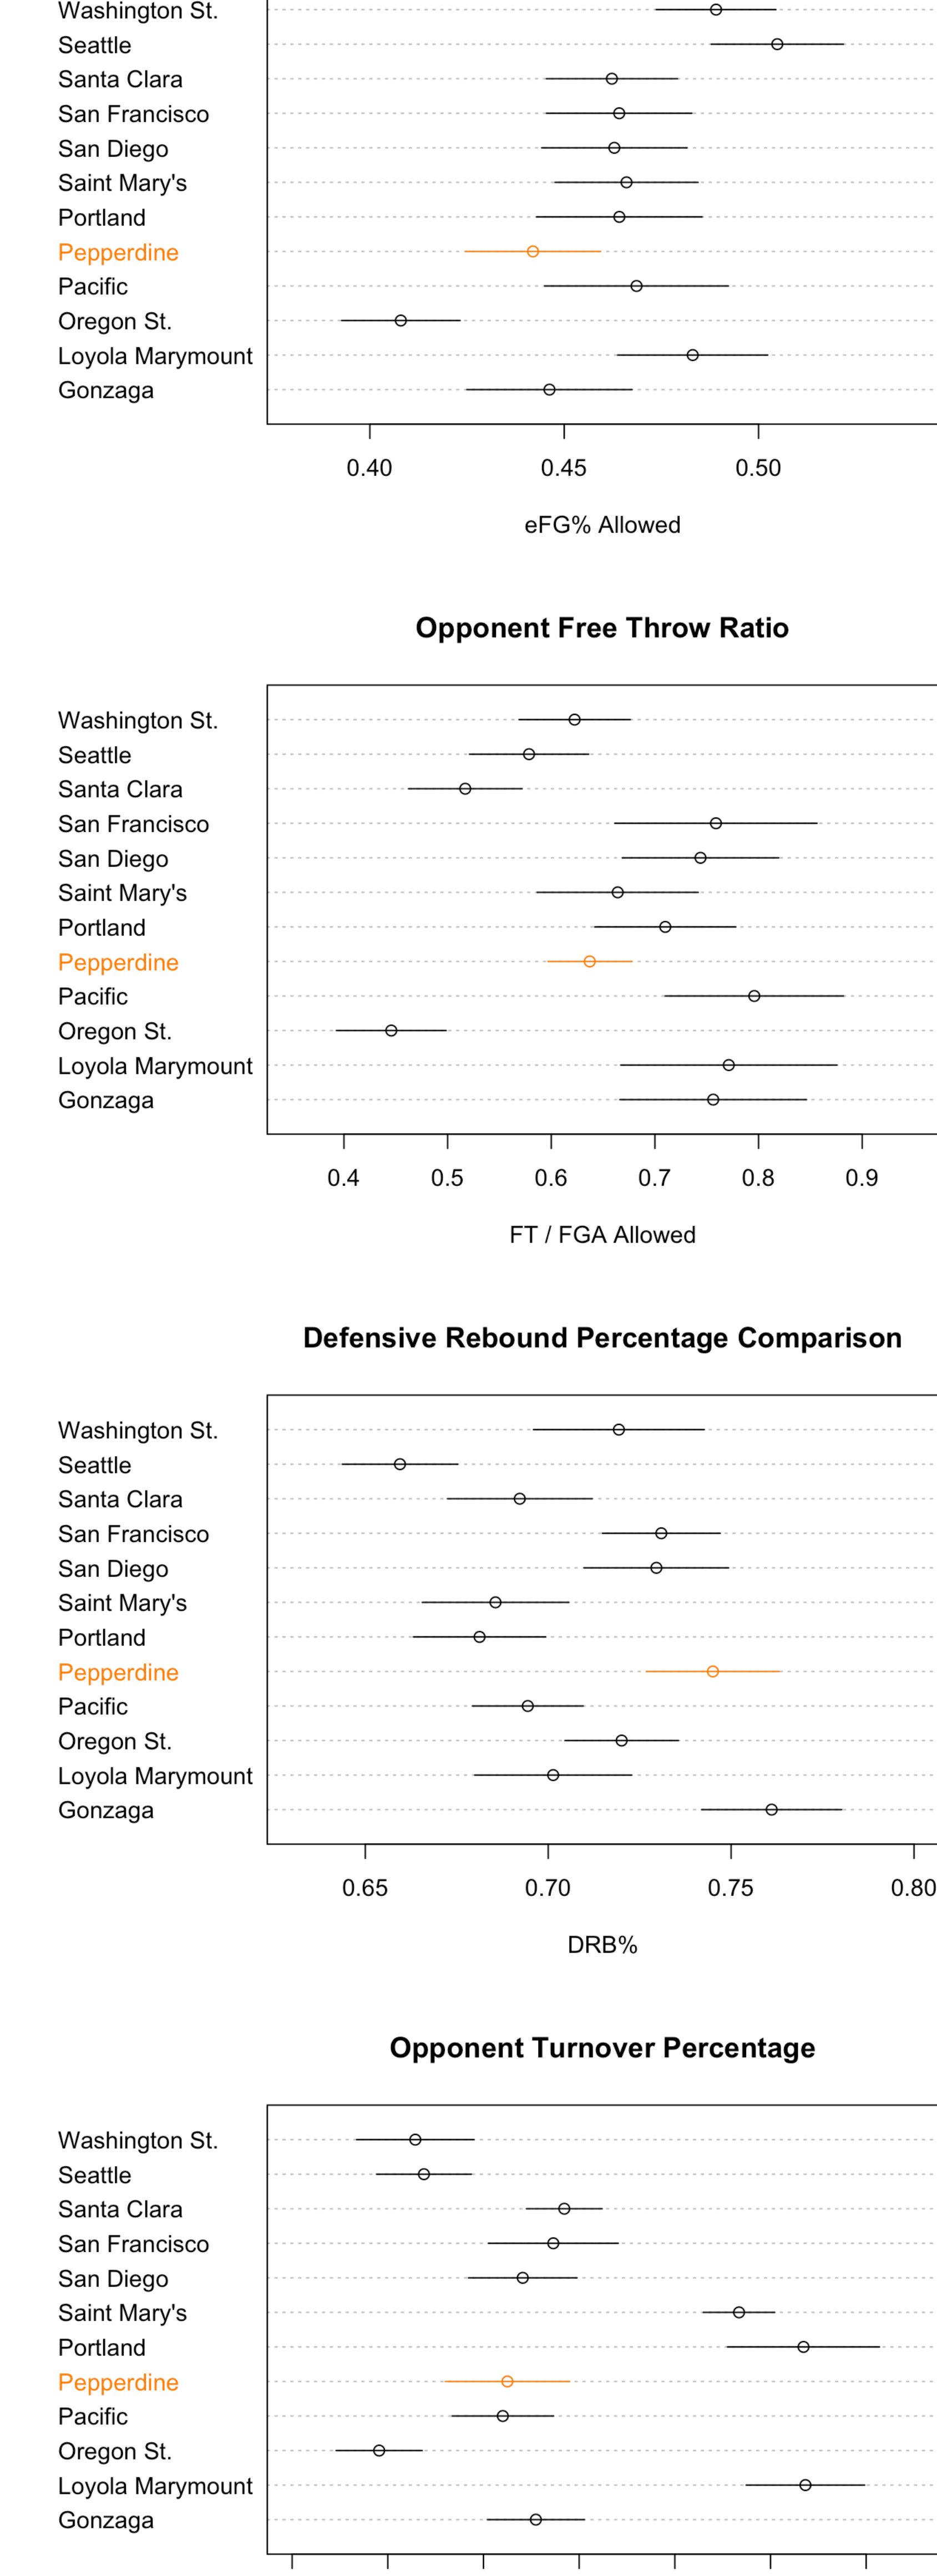

Weaknesses: drawing fouls, rebounding

Defense

Strengths: rebounding

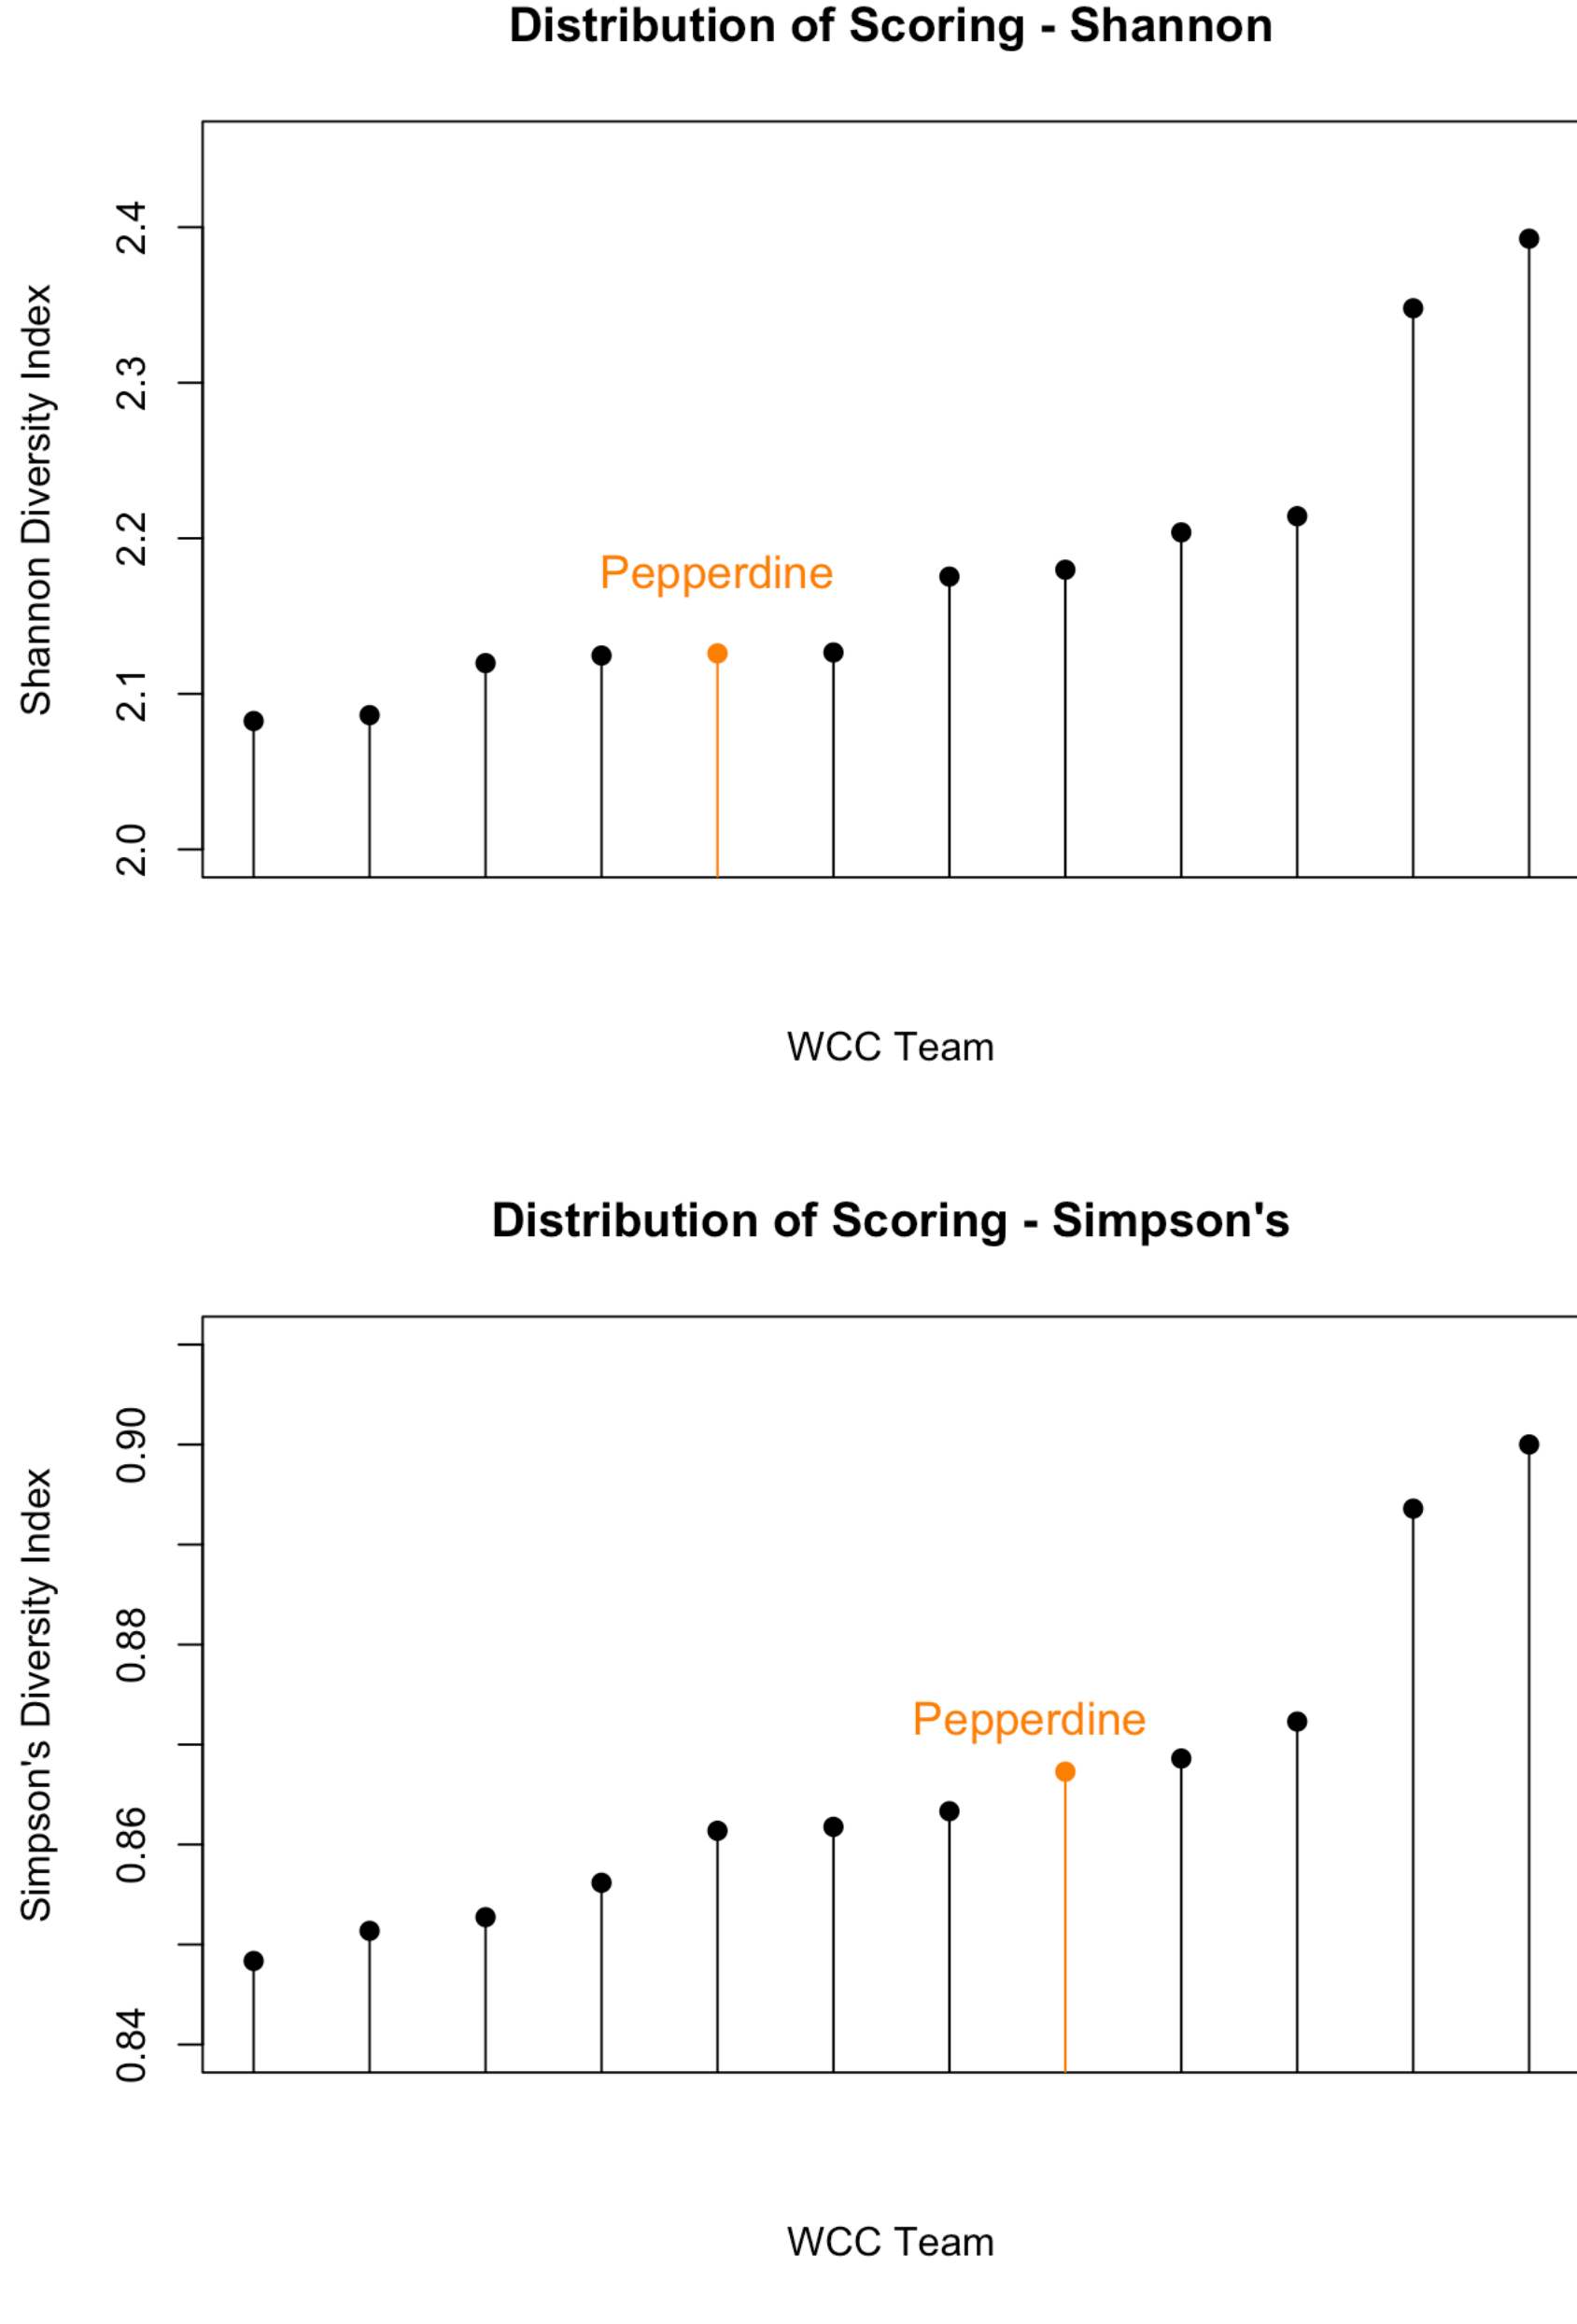

Weaknesses: subpar metrics otherwise; mid-level defense, slightly below average

Workload Distribution

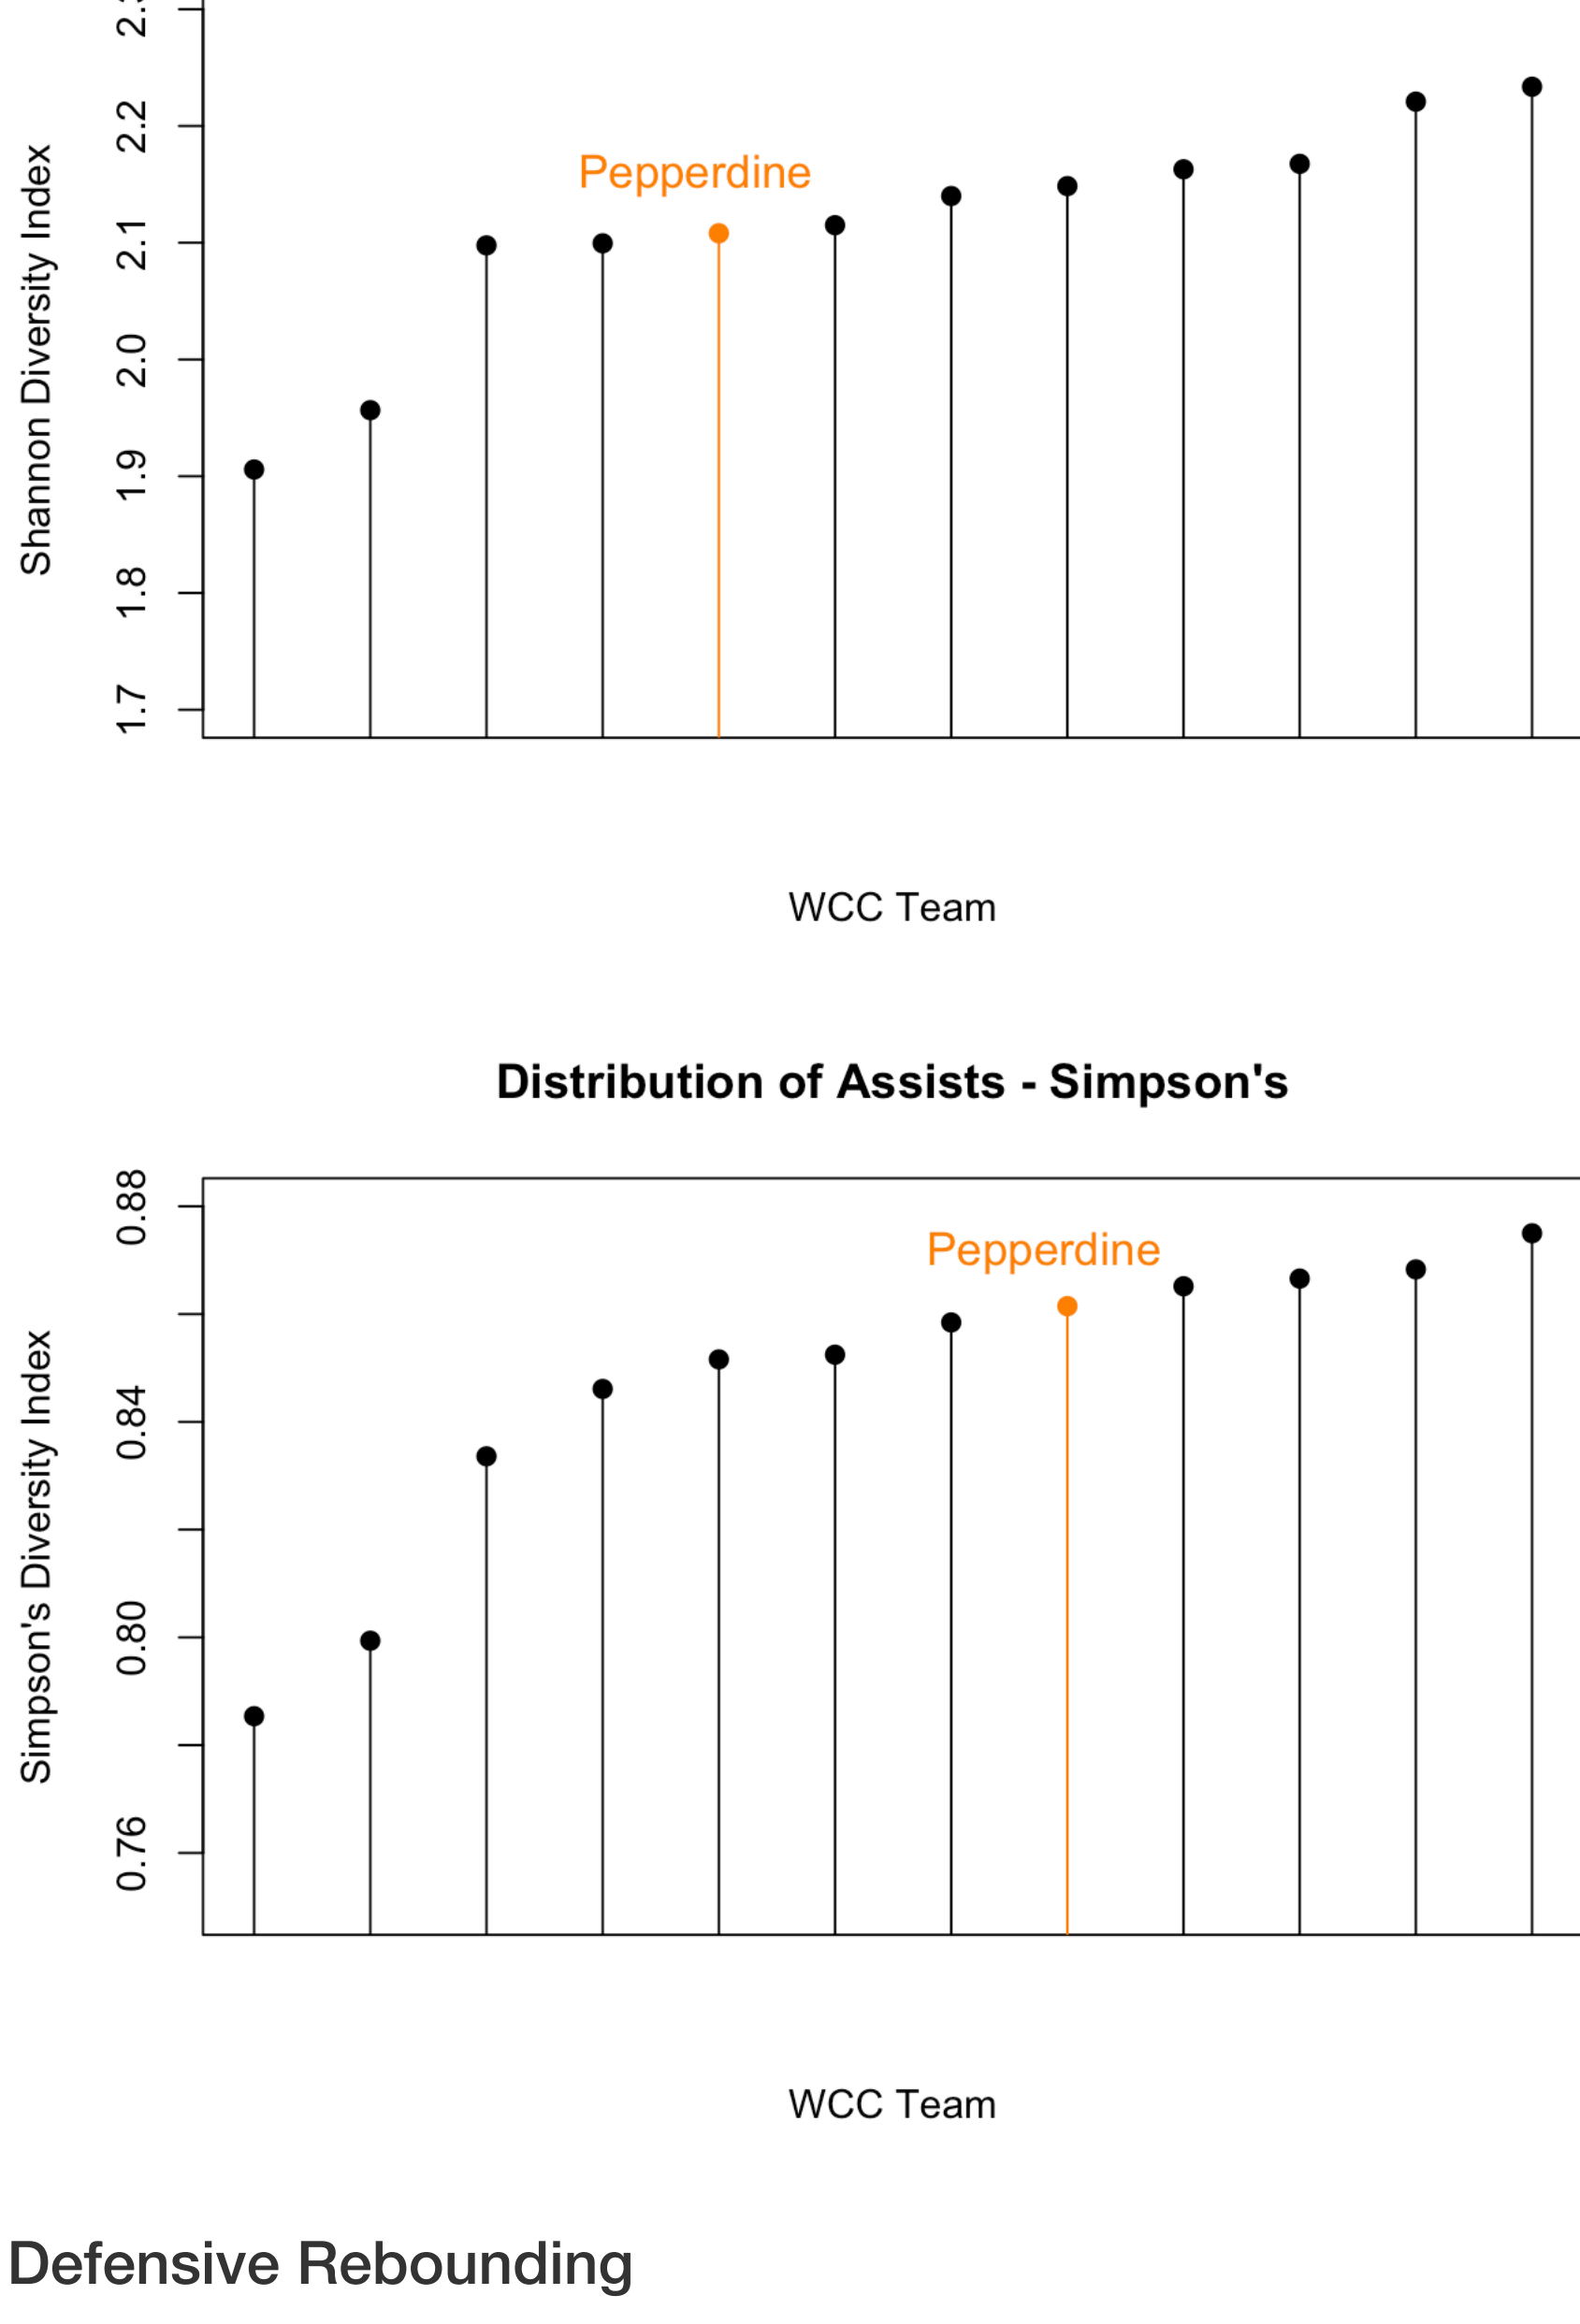

Scoring

Assessment: mid-level

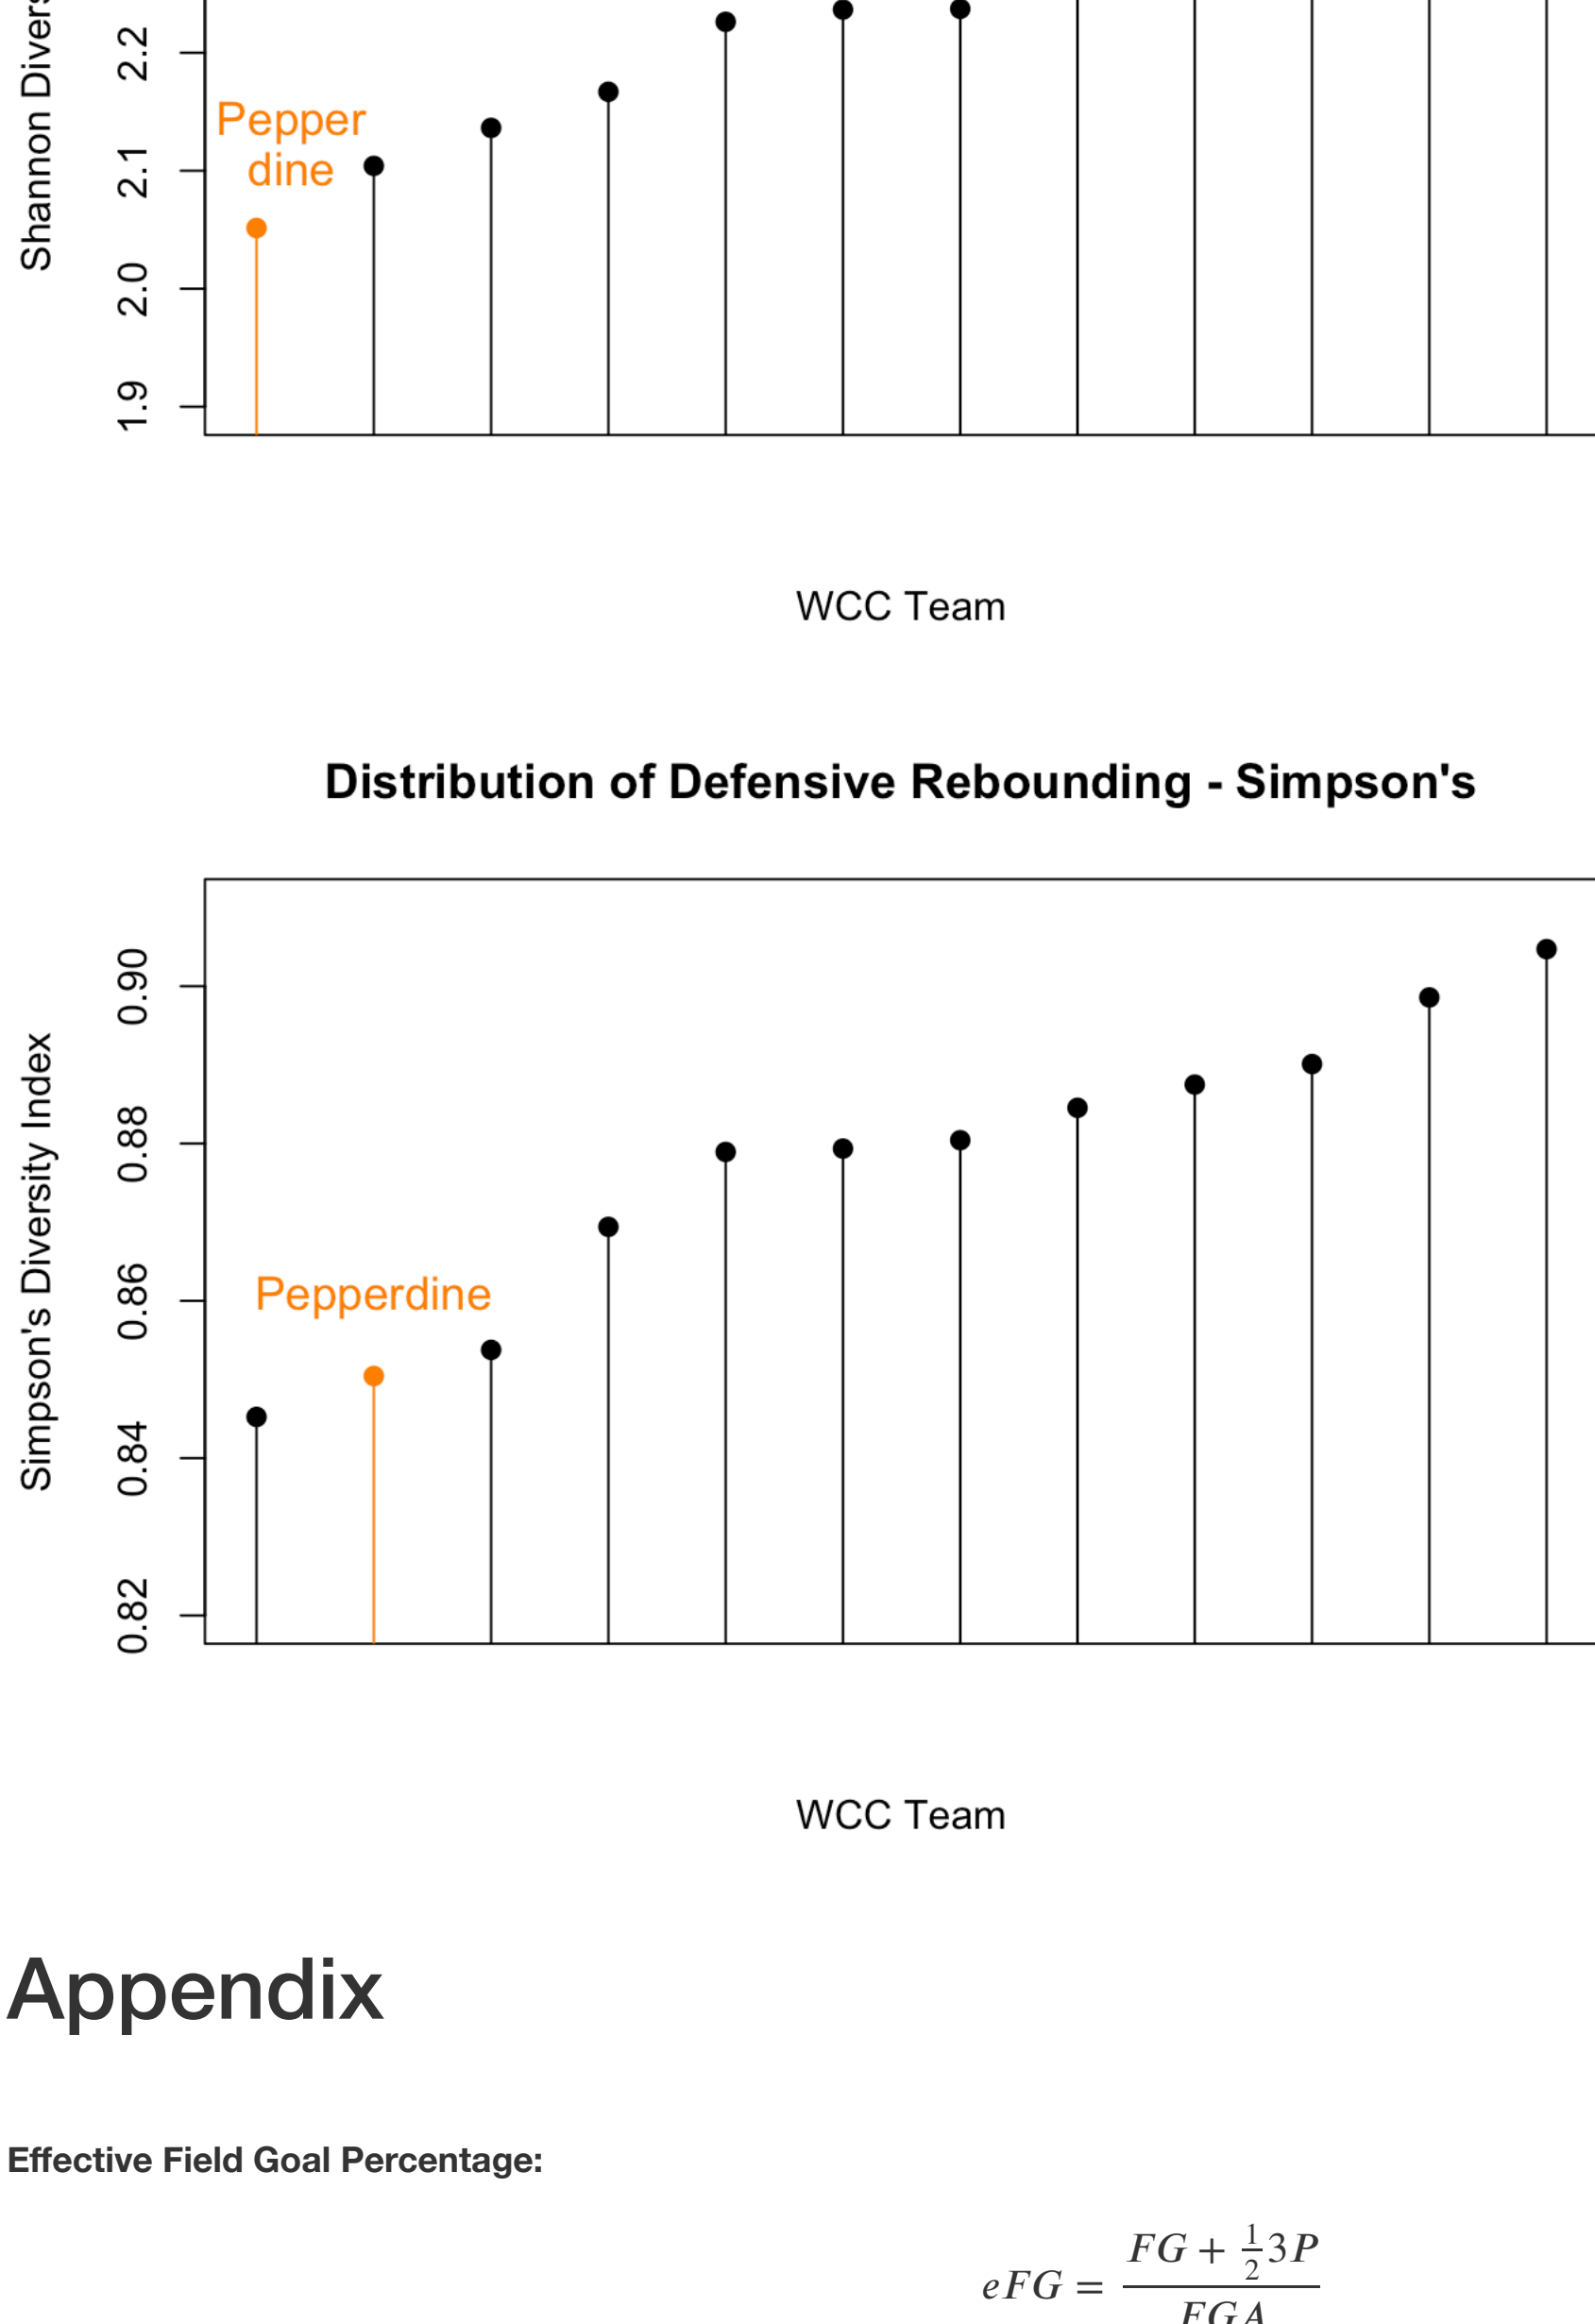

Assisting

Assessment: mid-level

Defensive Rebounding

Assessment: highly concentrated; a quarter of DRB's due to one player, Shorna Preston, alone; over half of DRB's due to Preston, Bella Green, or Meghan Fiso (**none** are returning, though)

Appendix

Effective Field Goal Percentage:

$$eFG = \frac{FG + \frac{1}{2}3P}{FGA}$$

3P: three point shots made

Free Throw Percentage:

$$FTR = \frac{FTA}{FGA}$$

Rebounding Percentage:

$$RB_{\text{rel}} = \frac{ORB}{ORB + Opp\ DRB}$$

flip ORB, DRB for defensive rebounding metric

Turnover Percentage:

$$TOV_{\text{rel}} = \frac{TOV}{FGA + TOV + \frac{11}{25}FTA}$$

Shannon's Diversity Index:

$$H = - \sum_{i \in C} (p_i \log(p_i)),$$

p_i is proportion of C that belongs to i

Simpson's Diversity Index:

$$D = 1 - \frac{\sum_{i \in C} N_i(N_i - 1)}{N(N - 1)},$$

N is the total number of elements in C , N_i is the number of elements in C that belong to group i
