

University of Portland Women's Basketball Team Scouting Report

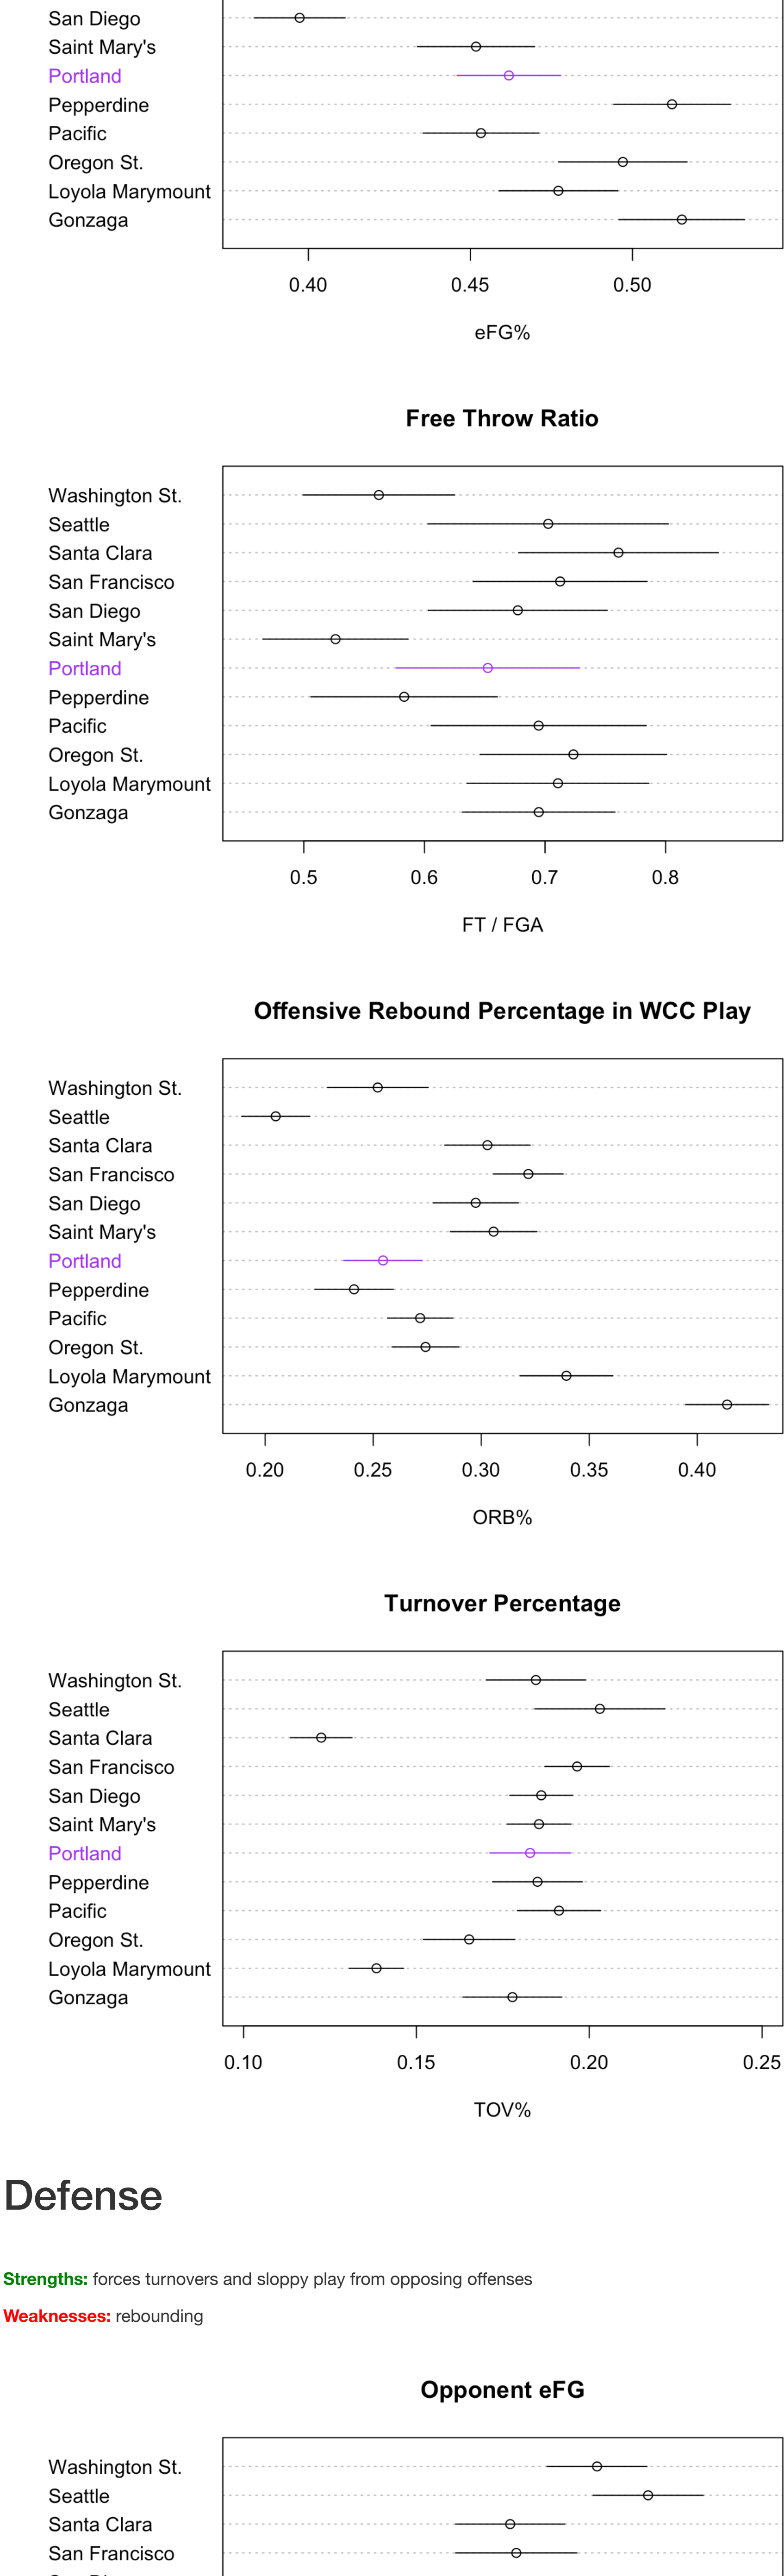

Overall Key Points

- Struggles rebounding on both ends of floor
- Stingy defense regarding forcing turnovers, sloppy play
- Spreads the workload; no player dominates scoring, assisting, or rebounding
- Strong amount of returning production, other than 3-PT shooting (quarter of threes by departing Nicole Rodriguez)

Offense

Strengths: none in particular

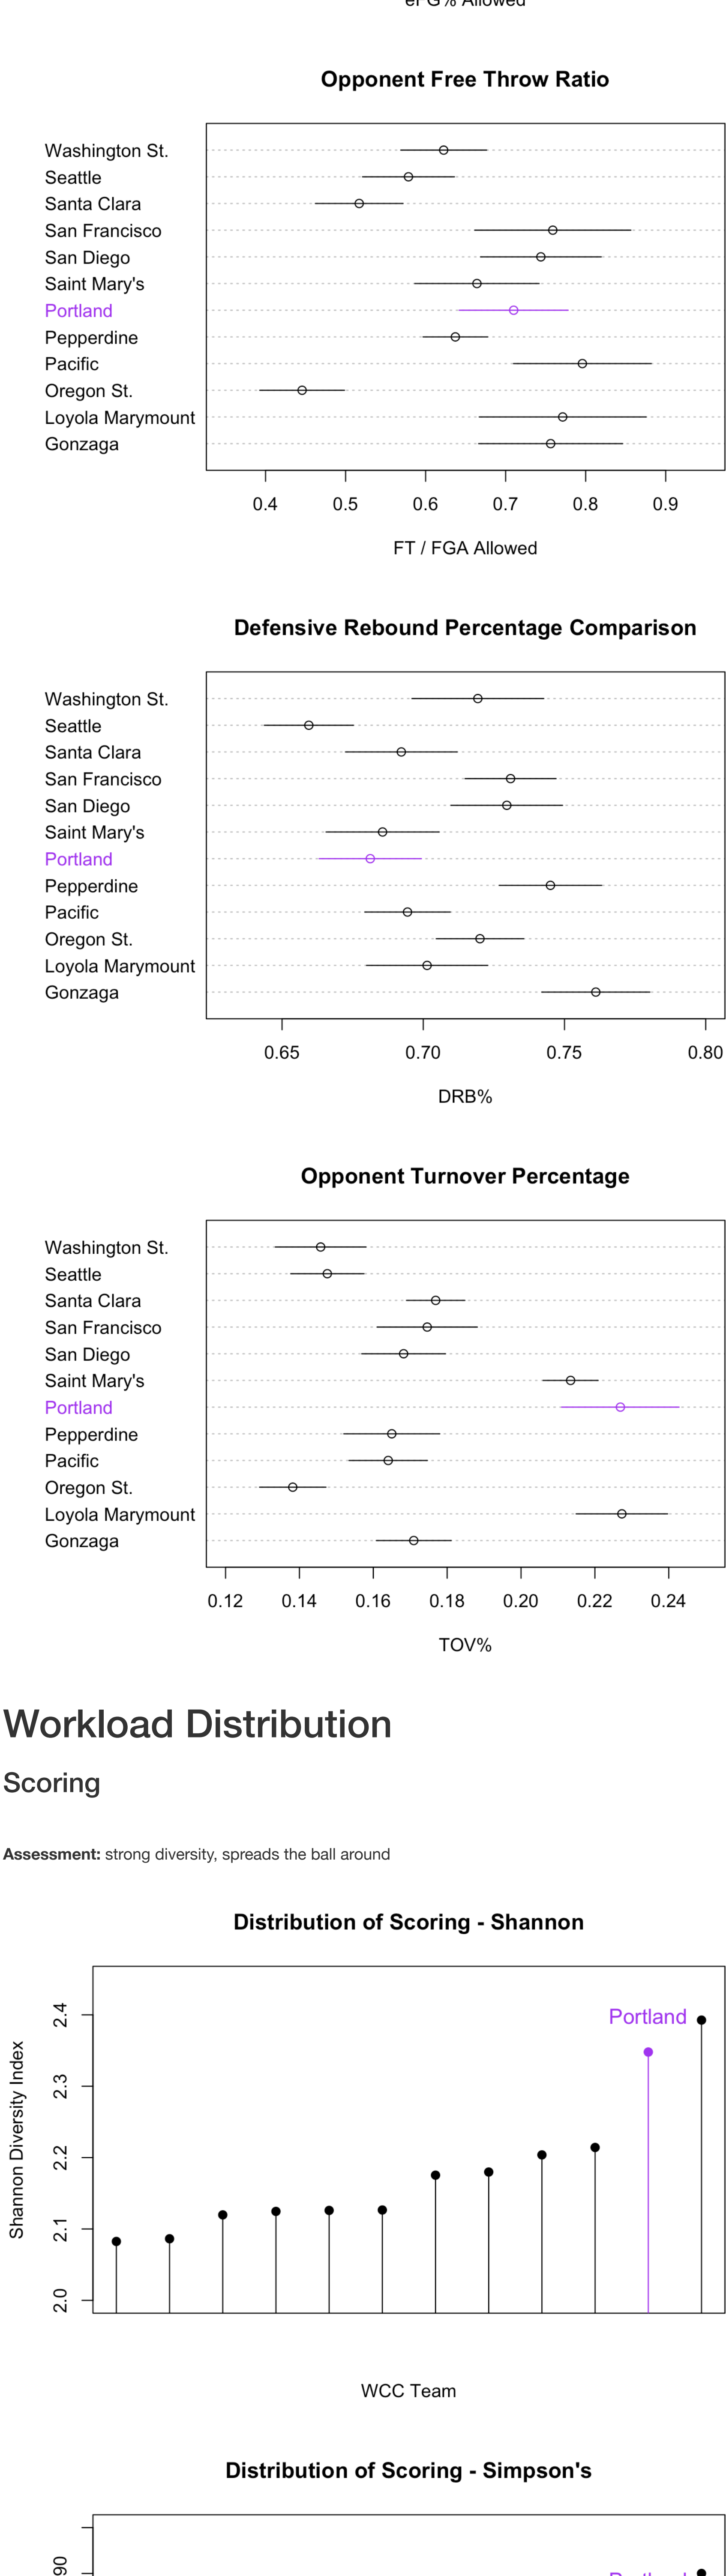

Weaknesses: rebounding

Defense

Strengths: forces turnovers and sloppy play from opposing offenses

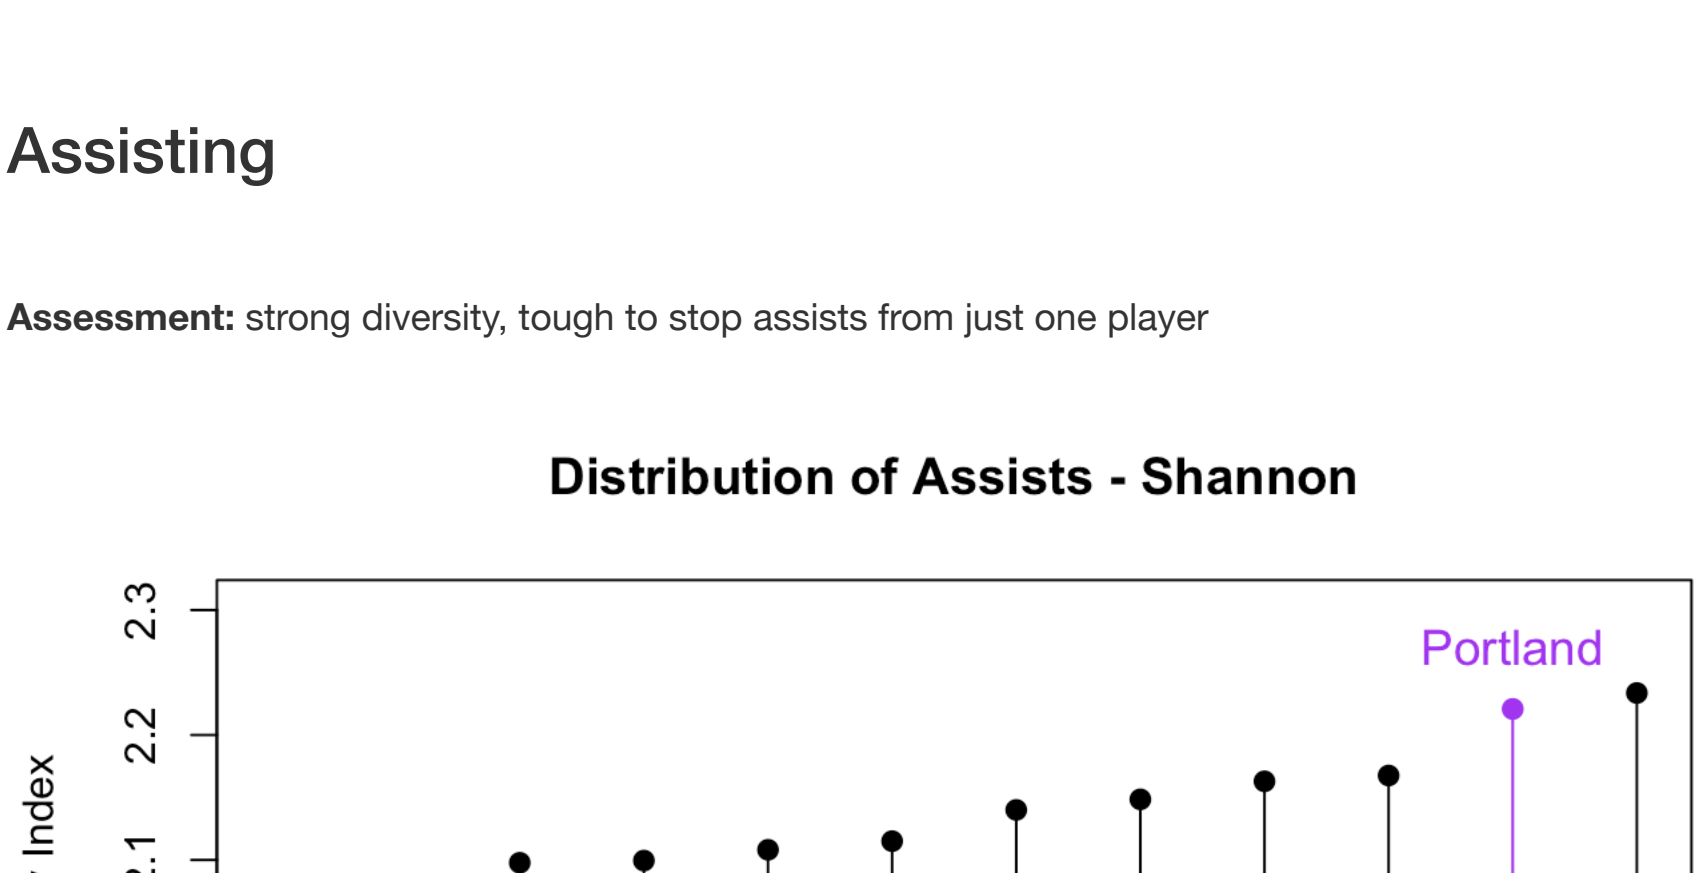

Weaknesses: rebounding

Workload Distribution

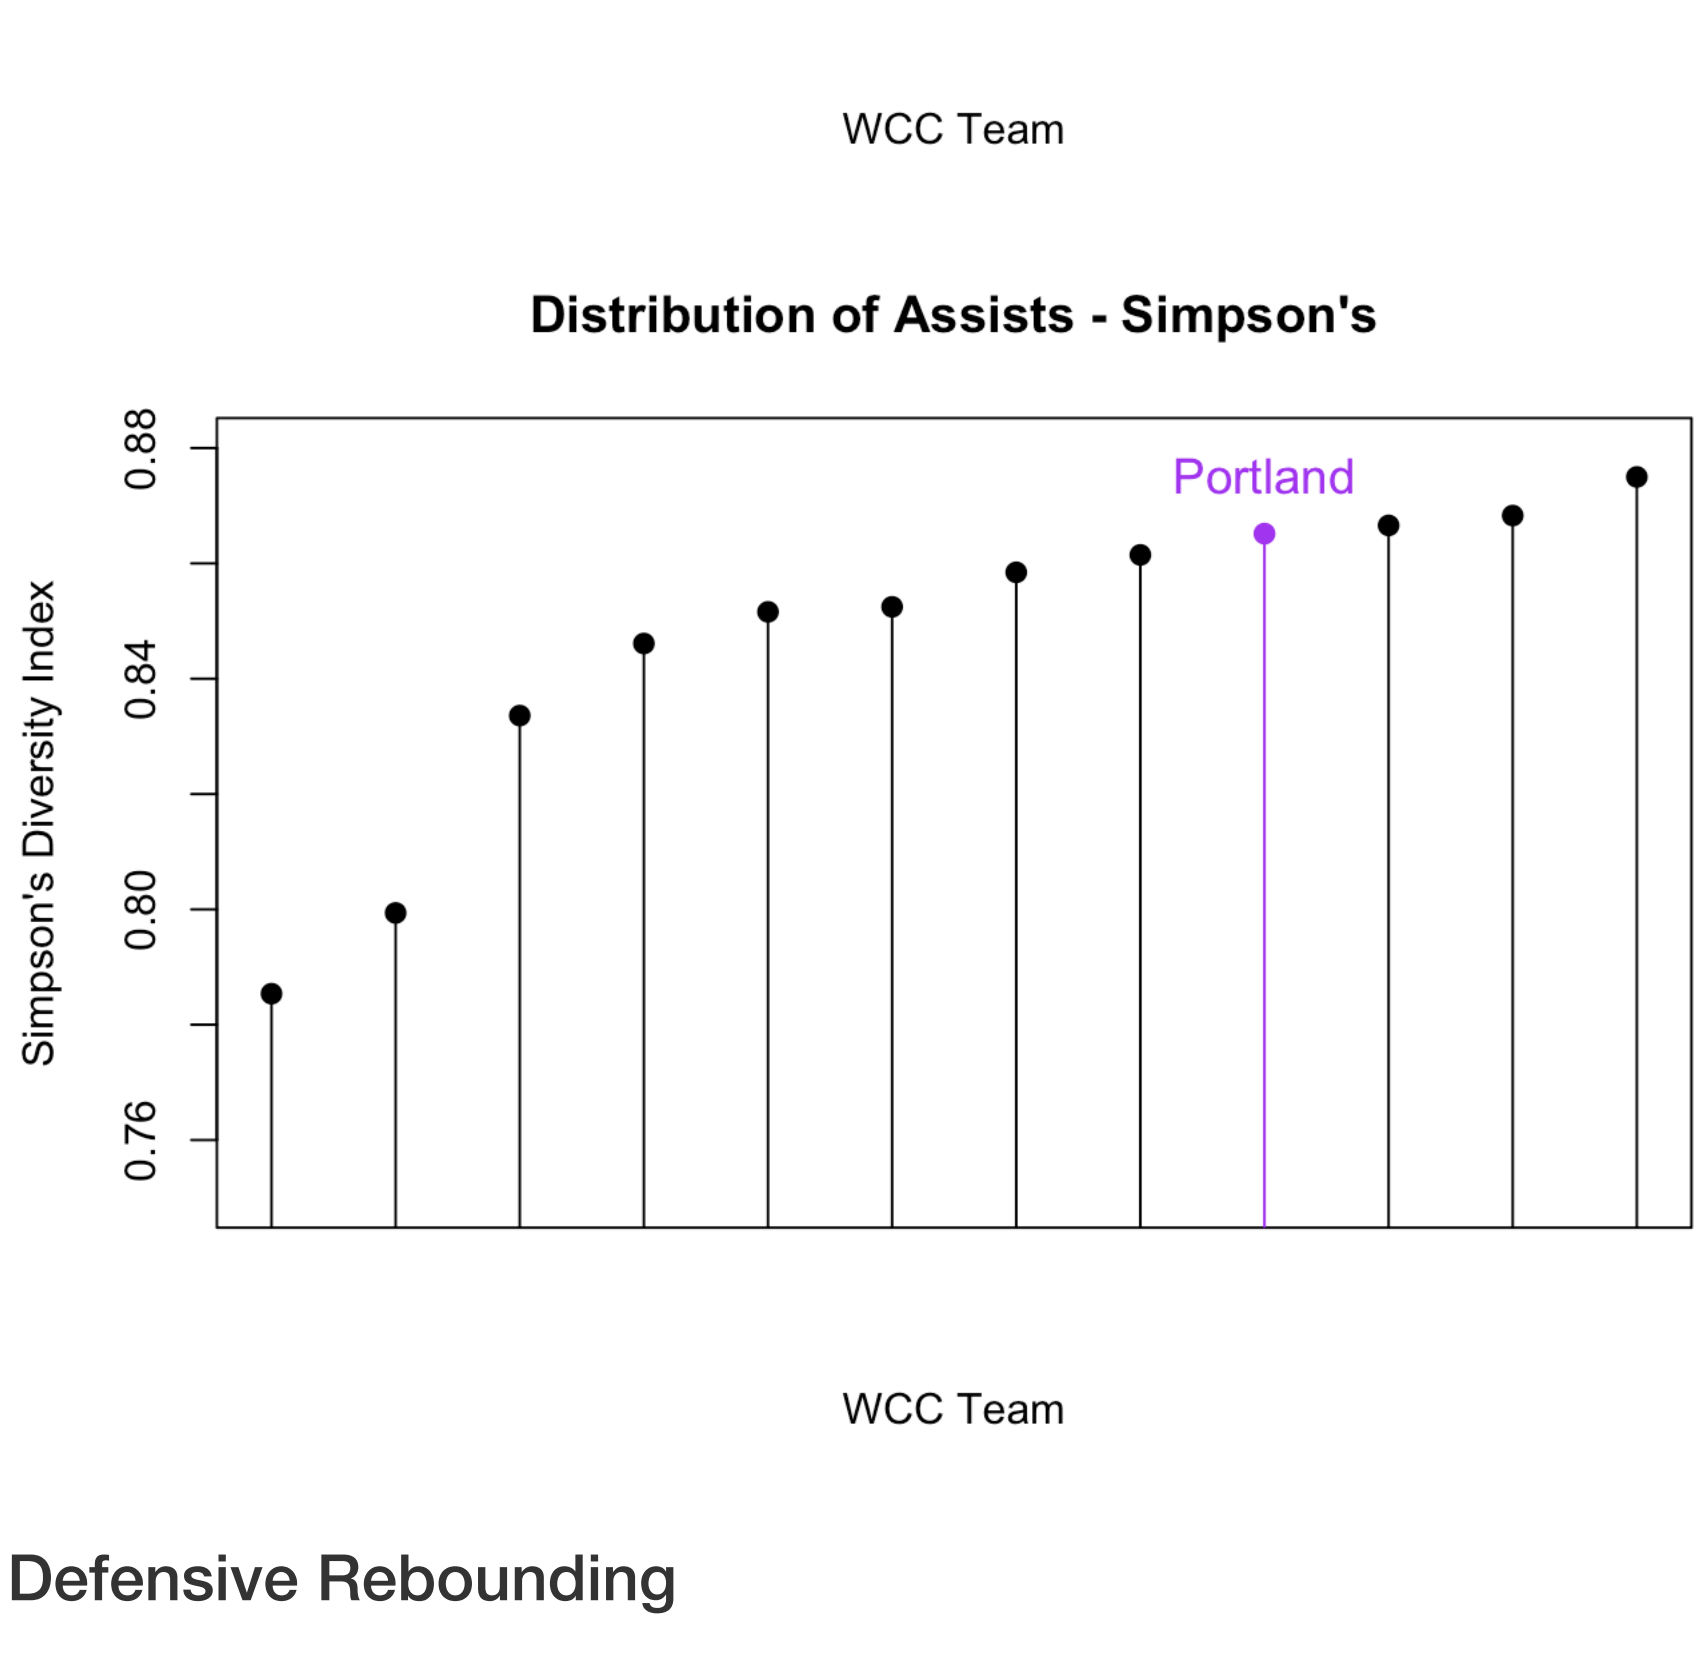

Scoring

Assessment: strong diversity, spreads the ball around

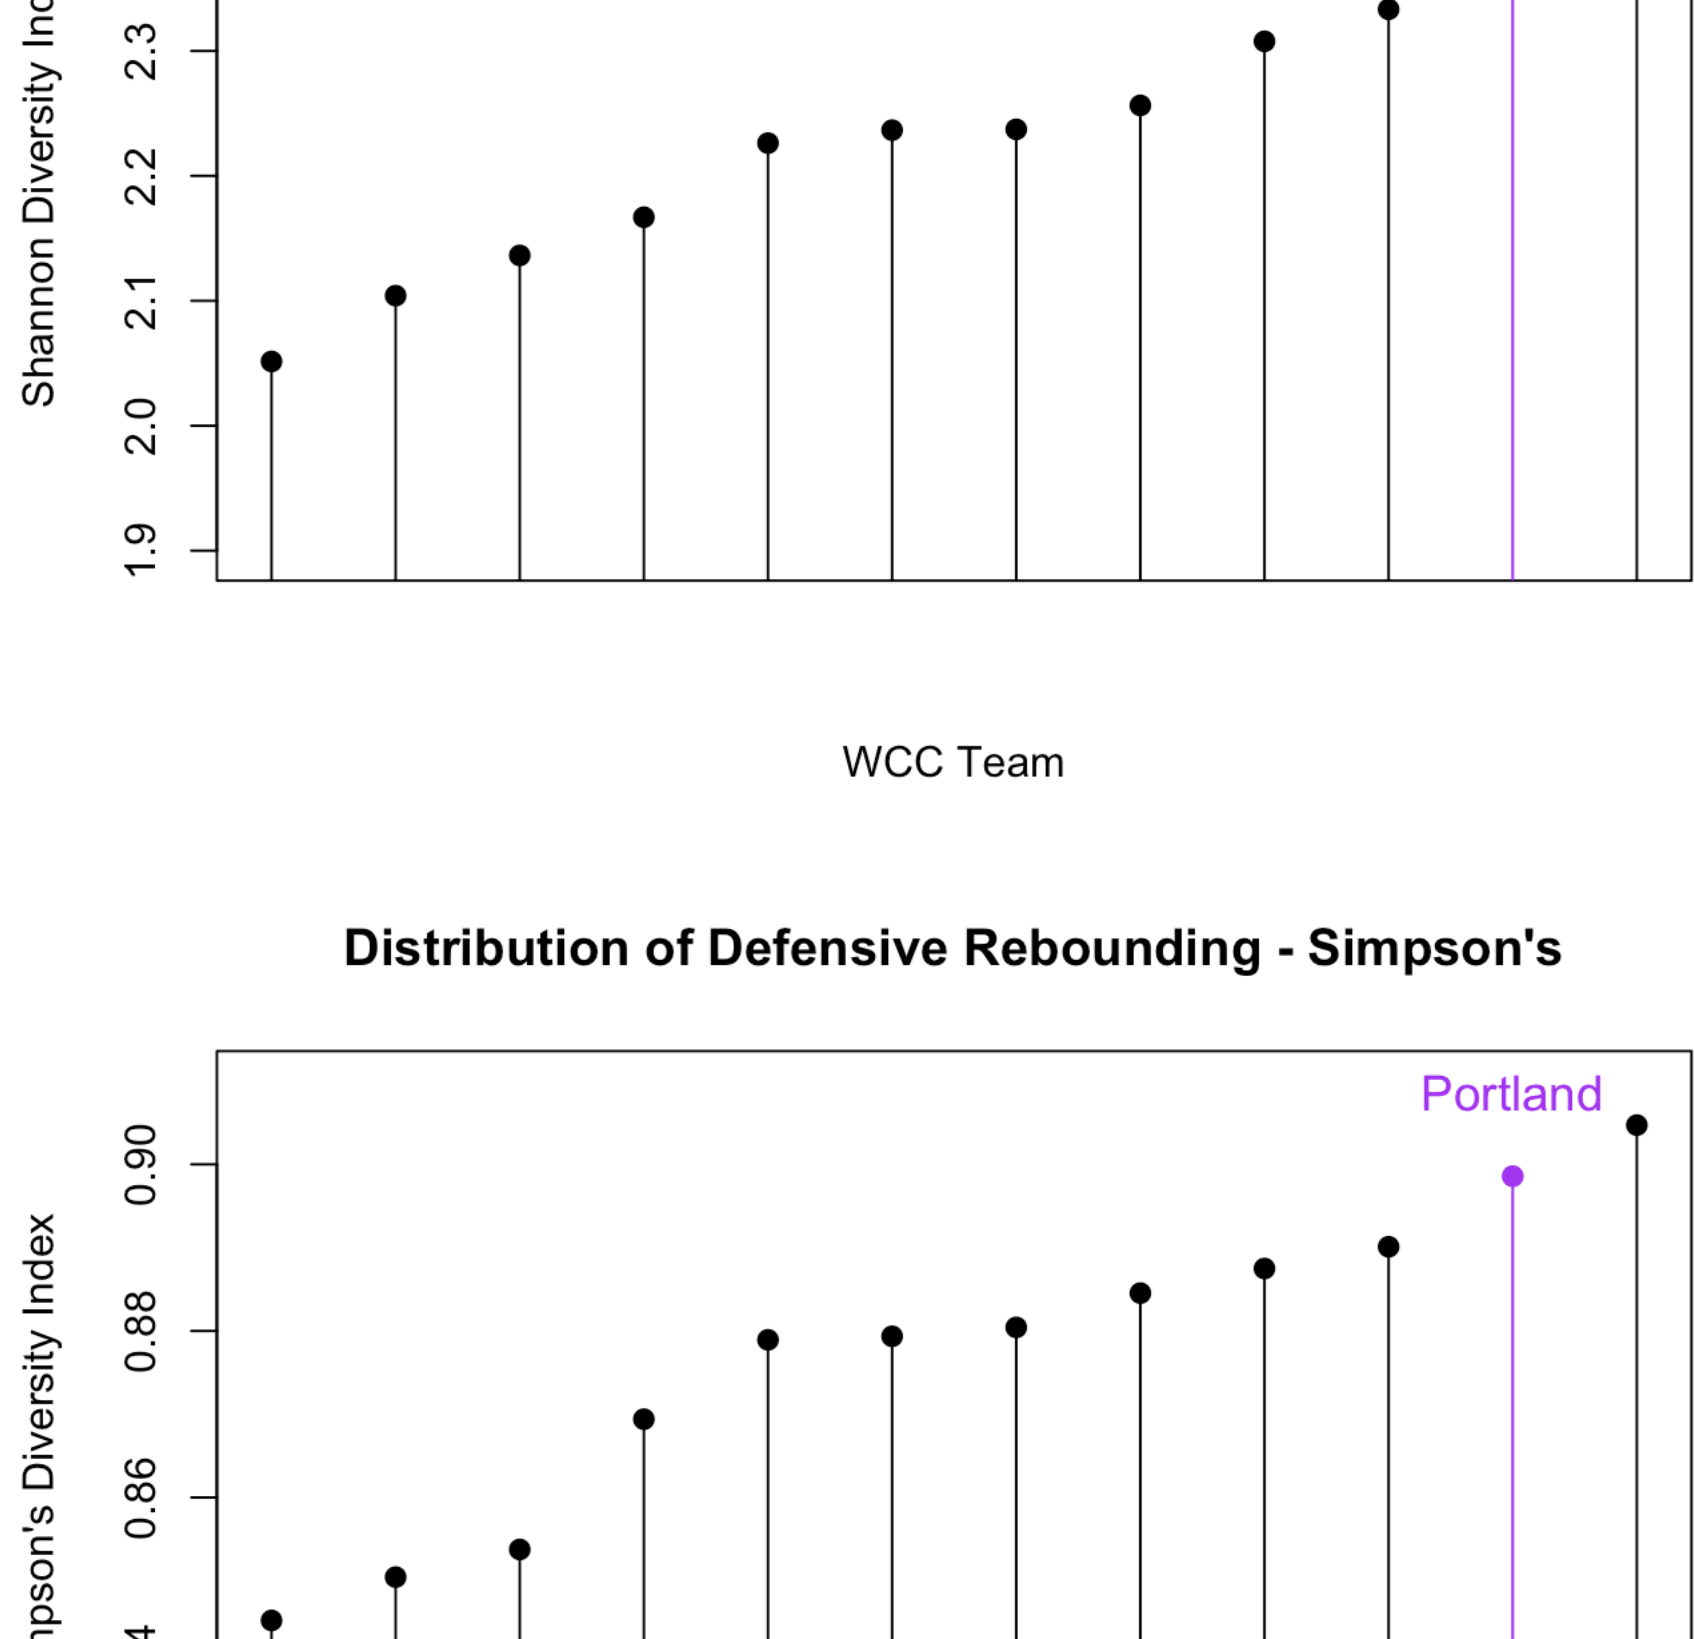

Assisting

Assessment: strong diversity, tough to stop assists from just one player

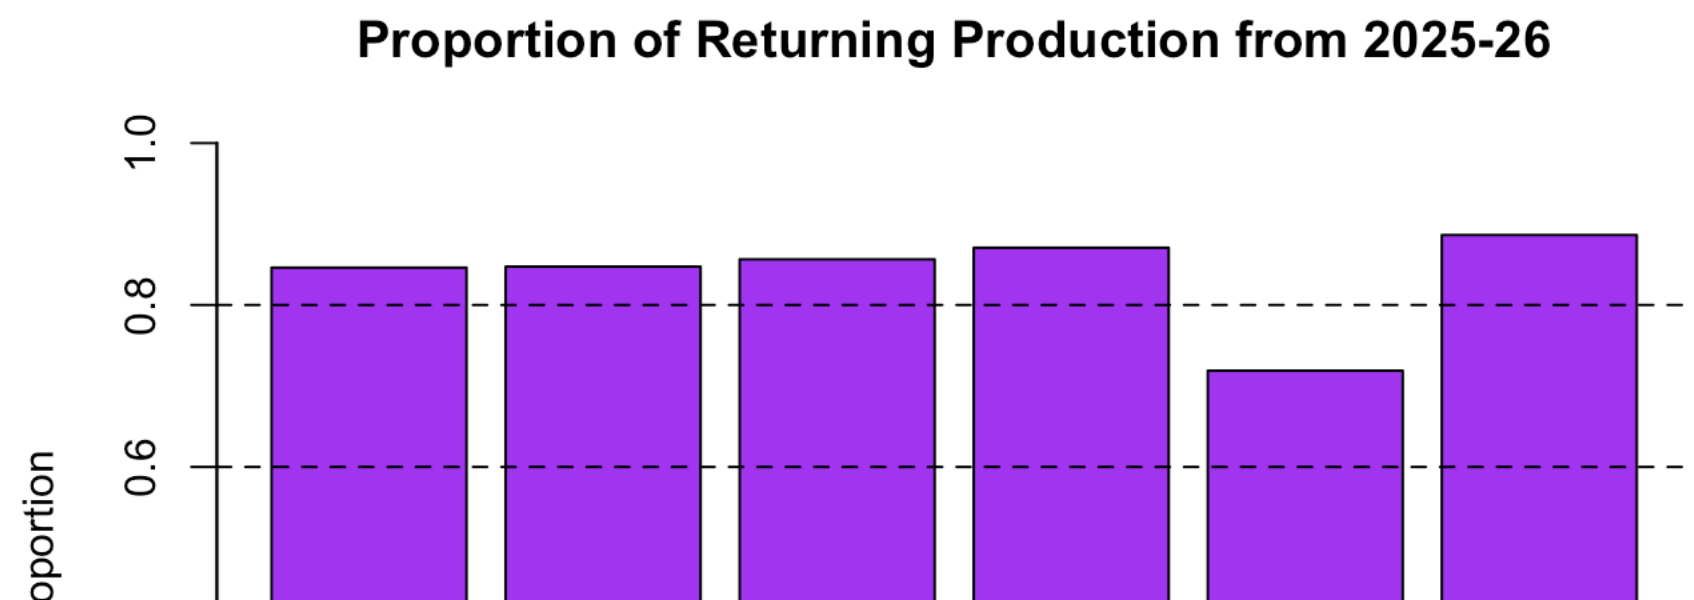

Defensive Rebounding

Assessment: strong diversity, anyone a threat to grab a DRB

Returning Production

Assessment: Lost some 3 point production (notably Nicole Rodriguez, 25 percent of team 3's); otherwise, very strong amount of returning production

Appendix

Effective Field Goal Percentage:

$$eFG = \frac{FG + \frac{1}{3}3P}{FGA}$$

3P: three point shots made

Free Throw Percentage:

$$FTR = \frac{FTA}{FGA}$$

Rebounding Percentage:

$$RB_{pct} = \frac{ORB}{ORB + Opp\ DRB}$$

flip ORB, DRB for defensive rebounding metric

Turnover Percentage:

$$TOV_{pct} = \frac{TOV}{FGA + TOV + \frac{1}{25}FTA}$$

Shannon's Diversity Index:

$$H = - \sum_{i \in C} (p_i \log(p_i)),$$

p_i is proportion of C that belongs to i

Simpson's Diversity Index:

$$D = 1 - \frac{\sum_{i \in C} N_i(N_i-1)}{N(N-1)},$$

N is the total number of elements in C, N_i is the number of elements in C that belong to group i
